

# BARRIER

## CY-KICK CS

exclusive SmartCap Technology creates a shell around the active ingredient, cyfluthrin, that increases residual control by protecting it from UV light, weather, porous, and greasy surfaces and absorption into soil or organic matter. It also acts as a barrier to diminish exposure to humans and pets while reducing plant phytotoxicity and staining. Studies have shown Cy-Kick CS to provide residual control of mosquitoes beyond 90 days. Low phytotoxicity.

**16 Ounce Bottle - 678791**  
**120 Ounce Bottle - 678792**  
**30 Gallon Drum - 732785**

## CYZMIC CS

is a micro-encapsulated suspension containing Lambda-Cyhalothrin and the innovative CapVantage™ technology. The broad use label includes applications for structural and perimeter pest control (including food handling), animal housing, turfgrass and ornamentals.

**8 Ounce Bottle - 789939**  
**32 Ounce Bottle - 789940**

## DEMAND CS

the active ingredient, lambda-cyhalothrin, is enclosed within microcapsules which protect it from environmental factors that may lessen its effectiveness. Demand CS provides effective control of a wide-range of adult mosquitoes in open areas including black salt-marsh mosquitoes, common malaria mosquitoes, salt-marsh mosquitoes, and southern house mosquitoes.

**8 Ounce Bottle - 634429**  
**32 Ounce Bottle - 651045**

## MASTERLINE BIFENTHRIN 7.9

is a broad spectrum pyrethroid product with superior residual that creates a long lasting barrier against mosquitoes. MasterLine Bifenthrin 7.9 is also less irritating and longer lasting than many other pyrethroids. It is a flowable formulation that can be diluted up to .12% and can be easily applied with a conventional sprayer or misting sprayer in both residential and commercial settings. It is a proven low-odor, non-irritating product that will give you superior results.

**16 Ounce Bottle - 757893**  
**32 Ounce Bottle - 756618**  
**3/4 Gallon Jug - 756452**  
**1 Gallon Jug - 756617**

## MAVRIK® PERIMETER

is an excellent tool for use as a barrier treatment in commercial and residential mosquito control service. It is a broad-spectrum pyrethroid that controls an array of pests that infest areas outside of residential and commercial buildings.

**8 Ounce Bottle - 417560**

### **ONSLAUGHT® MICROENCAPSULATED INSECTICIDE**

is 6.4% esfenvalerate with residual mosquito control. Microencapsulation protects the active from environmental factors, minimizes plant phytotoxicity and reduces potential irritation to applicators. Can be applied to turf, ornamentals, and landscapes for residual outdoor mosquito control.

- 16 Ounce Bottle – 749573**
- 64 Ounce Bottle – 752977**
- 1 Gallon Jug – 780509**
- 30 Gallon Drum – 789149**

### **OPTIMATE® CS**

is microencapsulated suspension containing highly concentrated Gamma-Cyhalothrin, the most active pyrethroid in the world. This single, biologically active isomer has the same strength at half the use rate as Lambda-Cyhalothrin. The CapVantage™ encapsulation technology ensures slow release and long-lasting residual effect. Labeled for use in and around structures, lawns and ornamentals.

- 10 Ounce Bottle – 800437**
- 16 Ounce Bottle – 789425**

### **SUSPEND® SC INSECTICIDE**

is a non-staining, low odor, and not harmful to plants while providing quick knockdown and long residual control when applied to mosquito resting areas. Suspend SC Insecticide contains Deltamethrin in an easy-to use suspension concentrate formulation extremely effective against mosquitoes at very low rates [0.03 to 0.06%] that is labeled for both indoor and outdoor applications.

- 16 Ounce Bottle – 633846**
- 1 Gallon Jug – 676787**

### **TALSTAR® PROFESSIONAL**

insecticide is a superior choice for use as a barrier treatment for control of urban mosquitoes and ticks. Additionally, it provides long-lasting control of over 75 other pests, including ants, termites, cockroaches, spiders, bed bugs, and fleas. And with its flexible label, Talstar Professional is approved in multiple use-sites, so you can use it almost anywhere: indoors and out, in industrial, commercial, and food-handling areas. With its broad label and dependable efficacy, Talstar Professional has been expertly formulated to help you get the job done right every time.

- 16 Ounce Bottle – 754965**
- 32 Ounce Bottle – 754975**
- 3/4 Gallon Jug – 754968**
- 1 Gallon Jug – 754966**

### **TEMPO® SC ULTRA**

is a non-staining, low odor, and not harmful to plants while providing quick knockdown and long residual control when applied to mosquito resting areas. Tempo SC Ultra contains the active ingredient  $\beta$ -cyfluthrin in a convenient suspension concentrate formulation and is labeled for use where you need it most: as a general spray around landscapes, lawns, and buildings.

- 240 Milliliter Bottle – 810187**
- 900 Milliliter Bottle – 690017**
