NARA Family Allergen-free rodent attractants

„NARA Liquid is one of the most attractive baits I have ever tested. The luring effect is immensely high and I think it is an ideal alternative and complement for daily use of any Pest Controller, especially in today's environment of rising food standards and non-toxic legislations.“

Dr. Andreas Prokop, Research & Development, Neudorff GmbH KG

NARA BLOC

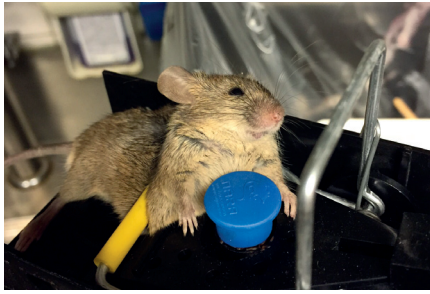

APPLICATION

NARA BLOC is a HIGH-TECH, NON TOX BAIT and MONITORING LURE for RATS and MICE, consisting of an aromatized special synthetic.

ADVANTAGES

- ✓ **High attractiveness** for rodents, especially mice.
- ✓ **Long durability** depending on location of deployment at least three months.
- ✓ **Allergen-free** and therefore ideally suited for use in the food industry.
- ✓ **No infestation** of the lure by insects (flour beetle, sawtoothed grain beetle, cockroaches etc.) as is the case with standard lures.
- ✓ **For the use in wet areas** excellently suited. No mould formation or decomposition due to humidity.
- ✓ **Distinction** between rat and mouse based on gnawing traces.

NARA LURE

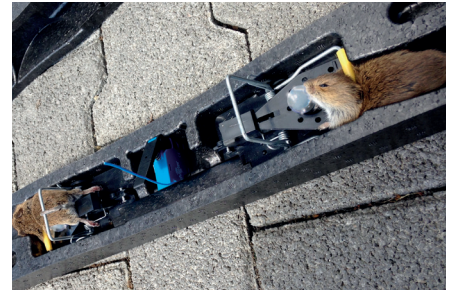

APPLICATION

NARA LURE is a HIGH TECH, NON TOX BAIT for RATS and MICE

ADVANTAGES

- ✓ **High attractiveness** for mice. Due to its "mushroom form" it increases the success of catching small/light mice.
- ✓ **Long durability** depended on location of deployment at least three months.
- ✓ **Allergen-free** and therefore ideally suited for use in the food industry.
- ✓ **No infestation** of the lure by insects (flour beetle, sawtoothed grain beetle, cockroaches etc.) as is the case with standard lures.
- ✓ **For the use in wet areas** excellently suited. No mould formation or decomposition due to humidity.

NARA LIQUID

APPLICATION

NARA LIQUID is a HIGH TECH, NON TOX ACUTE BAIT for RATS and MICE. It is especially suited for deployment in dry areas.

ADVANTAGES

- ✓ **Suited** among others for Kness rat snap traps and Kness mouse snap traps.
- ✓ **High attractiveness** for rodents, especially rats and mice.
- ✓ **Available** in three different aromas.
- ✓ **Irresistible** maximum attractiveness for acute pest control measures.
- ✓ **Suited** especially for dry areas.

Success with NARA LIQUID (experience report from the company Blattaria)

Scenario: Deployment of 40 pcs. Kness snap traps in Protecta Sidekick boxes.

Control 2 days after deployment

Result: 19 rats trapped.
Traps emptied and reset

Control 2 days later

Result: 21 rats trapped.
Traps emptied and reset

Control 2 days later

Result: 6 rats trapped.
Traps emptied and reset
