

The Pest Control Industry is Changing; You Need To Stay Ahead of the Curve.

Meet the products that will take you there.

Border Control

60 feet of saponized paper backed glue board on a roll. Wherever insects or mice are a problem is can be configured to help solve it.

Termite Seeker

Detects the CO2 given off by termites. Using infrared technology this rechargeable hand held unit finds live termites where other inspection tools cannot.

Rat-Out Gel

An instant "off" switch for rats, mice, squirrels, raccoons and other wildlife. FIFRA 25 (b) means it's ideal for any account.

Green Eye

The in-ground termite monitor that allows homeowners or PMPs to easily see an active infestation without even bending over. The green dot disappears when termites enter the unit.

Pest Call 24/7

Instant notification to your cell phone when a trap catches a pest. Works on wildlife traps too. Stops thieves during Termite Fumigation

Bulb Duster

This ergonomic hand held duster allows precise placement of dry formulations into cracks, crevices, and voids.

Come see and touch them all. Learn how to use in the field, and see real success stories. Check out these and other great products at www.pestbarrier.com.

FREE SEMINAR

February 29, 8am - 9am
Univar Riverside
1600 Chicago Ave., Suite R9
Riverside, CA 92507

RSVP 951-683-5168
Space is limited to 25
Fax 951-683-5879
Coffee and Donuts will be provided
