

Xlure® RTU **'The Inspector'**

A small trap for your big SPI jobs

Due to it's small size and low cost, Inspectors can be placed throughout large plants/warehouses to quickly zone in on insect hot spots, infestations & problem areas.

Trap Size {2 1/2" x 2 1/2" x 3/4"}

ACTIVE LIFE: 30 - 60 days

SHELF LIFE: 2 years
without refrigeration!

COSTS ABOUT \$ 1.25 PER TRAP

READY TO USE...

Pheromones {Plodia/Ephestia/Lasioderma serricorne} are loaded directly in the glue. Simply remove release paper, fold into box shape. It's ready to attract & capture:

Cigarette Beetles	Raisin Moths
Indian Meal Moths	Tobacco Moths
Almond Moths	Mediterranean Flour Moths

WHEN 'INCONSPICUOUS' IS IMPORTANT

The small, compact trap size allows for use in tight spaces or areas where monitoring should be inconspicuous; homes, grocery stores, pet shops, electrical panels. For both commercial & residential use.

* PANTRIES * CABINETS * FOOD STORAGE AREAS * PET FOOD AREAS *
* GROCERY STORES * SUPERMARKETS * PET STORES * FOOD PROCESSING PLANTS *
* FOOD STORAGE WAREHOUSES * FREIGHT TRAILERS * FREIGHT CONTAINERS *

EASY TO INSTALL

Inspectors can be hung using the tab located at the top of the trap or secured to surfaces with the double stick tape located on the back of the trap.
