

Bird Spider 360^o™

Bird Species	Pigeons, seagulls or larger birds
Where to Use	AC units, street lights, signs, boats, rooftops
Material	316 marine grade stainless steel "arms" and "pin" on a UV protected polycarbonate base. Separate PVC base and #10 316 grade screws included
Bird Pressure	Light to Medium

The Bird Spider 360^o™ is a rotating bird deterrent designed to keep seagulls, pigeons and larger birds from landing and roosting. Its stainless steel "arms" rotate and bounce in the wind scaring birds away from the treated area.

- ▶ Humane - does not harm birds
- ▶ Folds up and stores with ease
- ▶ Multiple mounting options

Patented US7036278

"Scuff Free" tips prevent the arms from becoming tangled or scratching surfaces.

Advantages & Benefits

- ▶ Available in four sizes: 2' , 4' , 6' , and 8'
- ▶ No assembly required - easy to install, easy to store
- ▶ Variety of mounting options available
- ▶ Humane, will not harm birds
- ▶ Virtually invisible and maintenance free
- ▶ Ideal for a variety of applications including shopping centers, parking lot lights, signs, electrical equipment, rooftops, boats and more
- ▶ No-tangle "Scuff Free" tips protect surfaces and help arms bounce and move with the wind

Locking mechanism keeps Bird Spider 360^o™ attached to base while spinning.

"Scuff Free" tips protect surfaces and help arms move with the wind.

Variety of mounting options available.
