

DIRECTIONS FOR USE

Handle trap with care. Edges may be sharp.

For safety wear gloves when handling trap.

Place the JT EATON™ REPEATER™ Multiple Catch MOUSE TRAP lengthwise against a wall or an object. Make sure that the entrance holes are closest to that wall or object. Baiting is not necessary, but placing a small dab of Peanut Butter or cheese in center inside trap may help catch mice sooner.

Submerge the JT EATON™ REPEATER™ Multiple Catch MOUSE TRAP in water for quick disposal of trapped rodents or release them. The hinged cover allows for easy clean-up. Completely Reusable. Check trap DAILY.
