

**BETTER BAIT. BETTER RESULTS.
THE NAME SAYS IT ALL.**

SureKill[®]

SureKill®

Rodenticides

Command Blocks and Place Packs

- Single feed, second generation anticoagulant, Bromadiolone, provides excellent control in less time after lethal dose is consumed.
- Everyday bait, whether maintenance or clean out, for indoor and outdoor control of rats, mice, and other non-commensal rodents.
- All Weather formulation reduces the risk of ruined bait, while food grade ingredients provide an irresistible formulation for effective control in most environments.

Item #	Description
116836	Command Blocks 18 lb pail (1 oz blocks)
116835	Command Place Packs 16 lb pail (1.5 oz place pack)

Guardian Blocks

- Proven first generation anticoagulant, Diphacinone, provides great value for everyday control for rats, mice, and other non-commensal rodents.
- Formulated for high palatability and weatherability, along with food quality grain mix, creating an attractive bait to the most wary of rodents.
- Multiple feed qualities reduce concerns of bait shyness making it an easy choice when used in a rotation program or as a maintenance bait.

Item #	Description
116355	Guardian Block 18 lb pail (1 oz block)

Assault Blocks

- Single feed, Bromethalin, makes rodents want to stop feeding after consuming a lethal dose, using less bait.
- Quick knockdown versus other anticoagulants with results in as little as 2 days after consuming toxic dose.
- Great for controlling rodents with resistance to anticoagulants and for clean out or sensitive accounts, where control is demanded in short periods of time.

Item #	Description
112831	Assault Block 4 lb pail (0.5 oz block)
