

DR 5 – Compression powder duster

The professional compression powder duster for pest control, gardens & more

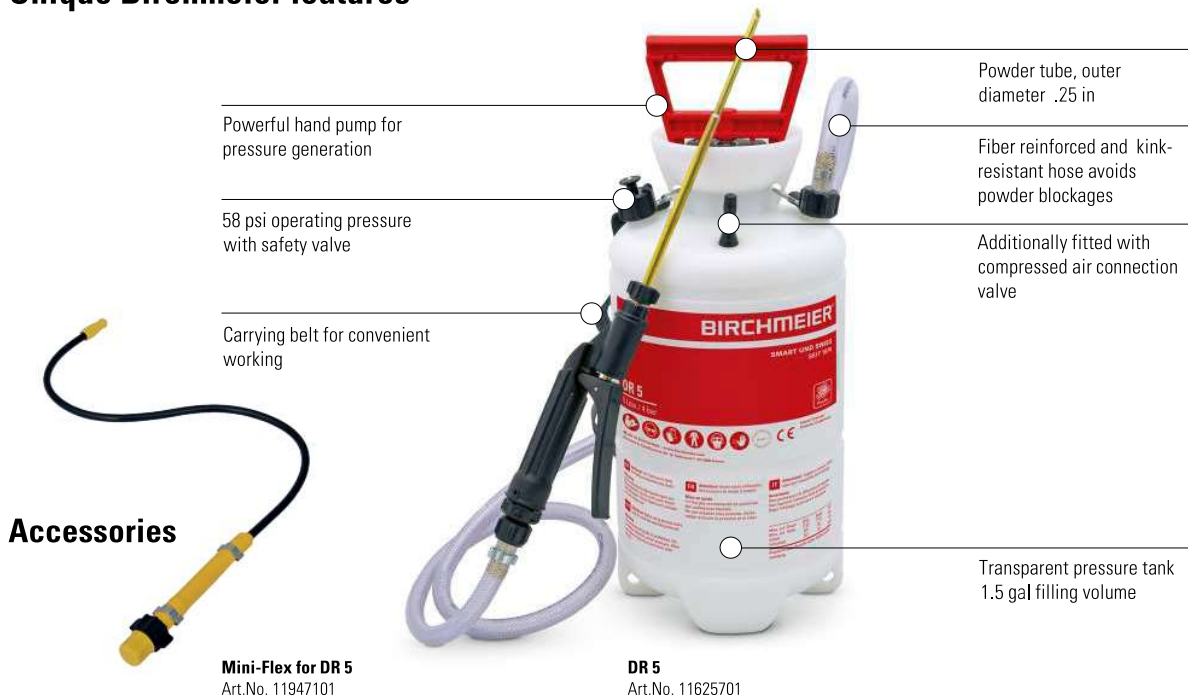

- Robust plastic tank with 1.5 gal filling volume, suitable for about 11 lbs of powder
- 58 psi working pressure
- Compressed air connection to build up pressure with pressed air
- With safety valve and integrated filling funnel
- Combined pump- and carrying handle with powder lance holder
- Fiber reinforced and kink-resistant hose avoids powder blockages
- Powder tube, outer diameter .25 in
- Especially suitable for biological use (diatomaceous earth, rock dust etc.)

Made in Switzerland
