

## Warm-Season Landscape Portfolio

### No Need to Look Any Further ... We Got You Covered!

Bayer offers a complete landscape portfolio to control the most problematic weeds, diseases and insects in lawns and ornamental beds. Specticle® FLO, Celsius®, Tribute® Total and Specticle G address weeds while Armada® and Altus® tackle diseases and insects respectively.

### Specticle FLO

- Broad-spectrum control of grassy and broadleaf weeds
- Excellent control of *Poa annua*, goosegrass, doveweed and annual kyllinga and sedges
- Up to 6 months of residual control
- Low amount of ai/A
- Compatible with postemergence herbicides
- Great complement to Ronstar
