

Warm-Season Herbicide Portfolio

Weeds Don't Stand a Chance!

Bayer offers a complete herbicide portfolio to address the most difficult to control weeds. Specticle® FLO and Ronstar® offer excellent preemergence control while Celsius®, Tribute® Total and Revolver® deliver broad spectrum postemergence activity.

Specticle FLO

- Broad-spectrum control of grassy and broadleaf weeds
- Excellent control of *Poa annua*, goosegrass, doveweed and annual kyllinga and sedges
- Up to 6 months of residual control
- Low amount of ai/A
- Compatible with postemergence herbicides
- Great complement to Ronstar

Specticle 1 Gal	Quantity Pricing (Bottle)			
	1 - 3	4 - 13	14 - 25	26+
Jan - July 2020	\$1,700.00	\$1,700.00	\$1,550.00	\$1,550.00
2020 Fall Pricing	\$1,700.00	\$1,649.00	\$1,457.00	\$1,410.50
Maximum savings up to	----	3% \$51	14.2% \$243	17% \$289.50

Ronstar

- Excellent control of goosegrass
- Controls weeds via shoot uptake in the presence of sunlight (protox inhibitor)
- No effect on turf root systems
- For sites with winterkill concerns, use instead of Specticle FLO for first PRE application
- Choose between Ronstar G, Ronstar FLO and Ronstar on Fertilizer

Ronstar FLO	Quantity Pricing (Jugs)		
	1 - 11	12 - 39	40+
