- Our glue is backed with 65+ years of know-how.
- Economical. Easy to deploy.

Non-Toxic –
home &
family safe

Long-Lasting –
effective for up
to one full year

Pest
Identification

Fast-Acting –
no additional
baiting required

GLUE TRAPPING TIPS

- The more the merrier – rodents and insects can be fickle, placing several traps will increase your likelihood of a catch
- If possible, leave the trap in the environment for a day or two before removing the release paper, this will allow for pests to acclimate to the trap
- Secure traps with Hercules putty
- If moisture is present, use a glue tray
