

Supplemental Label

BroadStar™ HERBICIDE

EPA Reg. No. 59639-128
(Except California and New York)

BROADSTAR™ HERBICIDE FOR USE IN LANDSCAPE GROWN ORNAMENTAL SHRUBS, TREES, GROUND COVERS, NON-BEARING FRUIT AND NUT TREES AND VINES

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

THIS LABELING MUST BE IN THE POSSESSION OF THE USER AT THE TIME OF APPLICATION.

READ THE LABEL AFFIXED TO THE CONTAINER FOR *BROADSTAR* HERBICIDE BEFORE APPLYING.

USE OF *BROADSTAR* HERBICIDE ACCORDING TO THIS LABELING IS SUBJECT TO THE USE PRECAUTIONS AND LIMITATIONS IMPOSED BY THE LABEL AFFIXED TO THE CONTAINER FOR *BROADSTAR* HERBICIDE.

In residential and commercial landscape, *BroadStar* Herbicide should only be applied by commercial licensed applicators. *BroadStar* Herbicide applied at 150 lbs per acre (approximately 3.5 lbs per 1000 sq ft) is an effective herbicide treatment for control of the weeds listed in Table 4 Weeds Controlled, on the container label, when applied to established container, field or landscape grown shrubs, trees, Christmas trees, ground covers, non-bearing fruit and nut trees and vines. *BroadStar* Herbicide may also be applied at 150 lbs/A to maintain bare ground in non-crop areas in apartment complexes, gravel surfaces, ground mats, golf courses, office complexes, parks, parking areas, recreational sites, schools, sidewalks and other similar sites. Apply *BroadStar* Herbicide in these settings before weeds germinate.

READ AND FOLLOW THE ENTIRE GENERAL INFORMATION SECTION OF THE CONTAINER LABEL BEFORE APPLYING.

Special Product Use Precautions for Landscape Application

BroadStar Herbicide can cause contact injury to foliage of landscape ornamentals if applied over the top of new flush, and especially if foliage is wet. To maximize crop tolerance, apply *BroadStar* Herbicide to dormant or non-actively growing landscape plants and avoid application to new flush.

To minimize the potential for plant injury do not apply *BroadStar* Herbicide:

- To foliage that is wet due to rainfall, irrigation or dew.
- Over the top of ornamental plants not listed in Table 6 Trees including Christmas Trees, of the container label, until evaluating plant tolerance on a small number of plants grown under standard growing conditions.

- To plants whose leaves channel the herbicide granules to the leaf base.
- To plants grown from seed until at least one year after seed germination, unless tolerance is first confirmed on a small number of plants.
- To bedding plants or in areas where bedding plants will be planted or transplanted within three months following application.
- To recently transplanted ornamentals (including those on the list of tolerant ornamental species) until such plants have been actively growing for at least 6 weeks after transplanting, and have established a vigorous root system.
