

RatX[®] BAIT DISCS

RatX[®] Bait Discs are ready-made rodenticide discs that are perfect for use in our RatX[®] bait stations or similar outdoor bait boxes. Weather-resistant, RatX[®] Bait Discs are perfect for sheds, barns, or any area exposed to more extreme weather conditions.

Our patented blend of food-grade ingredients presents an attractive taste and scent to draw rats and mice. And with no risk of secondary kill, they're ideal for use around pets, livestock, and children—and pose no threat of poisoning to birds of prey (like owls) or other predatory wildlife.
