

Removing Interior Birds

Finally, Mist Nets that are EASY to Set Up and Take Down!

Reach ceilings up to 36 ft. without ladders or lifts.

Using a mist net to capture birds in a store is already a challenging matter. Your equipment shouldn't make it harder!

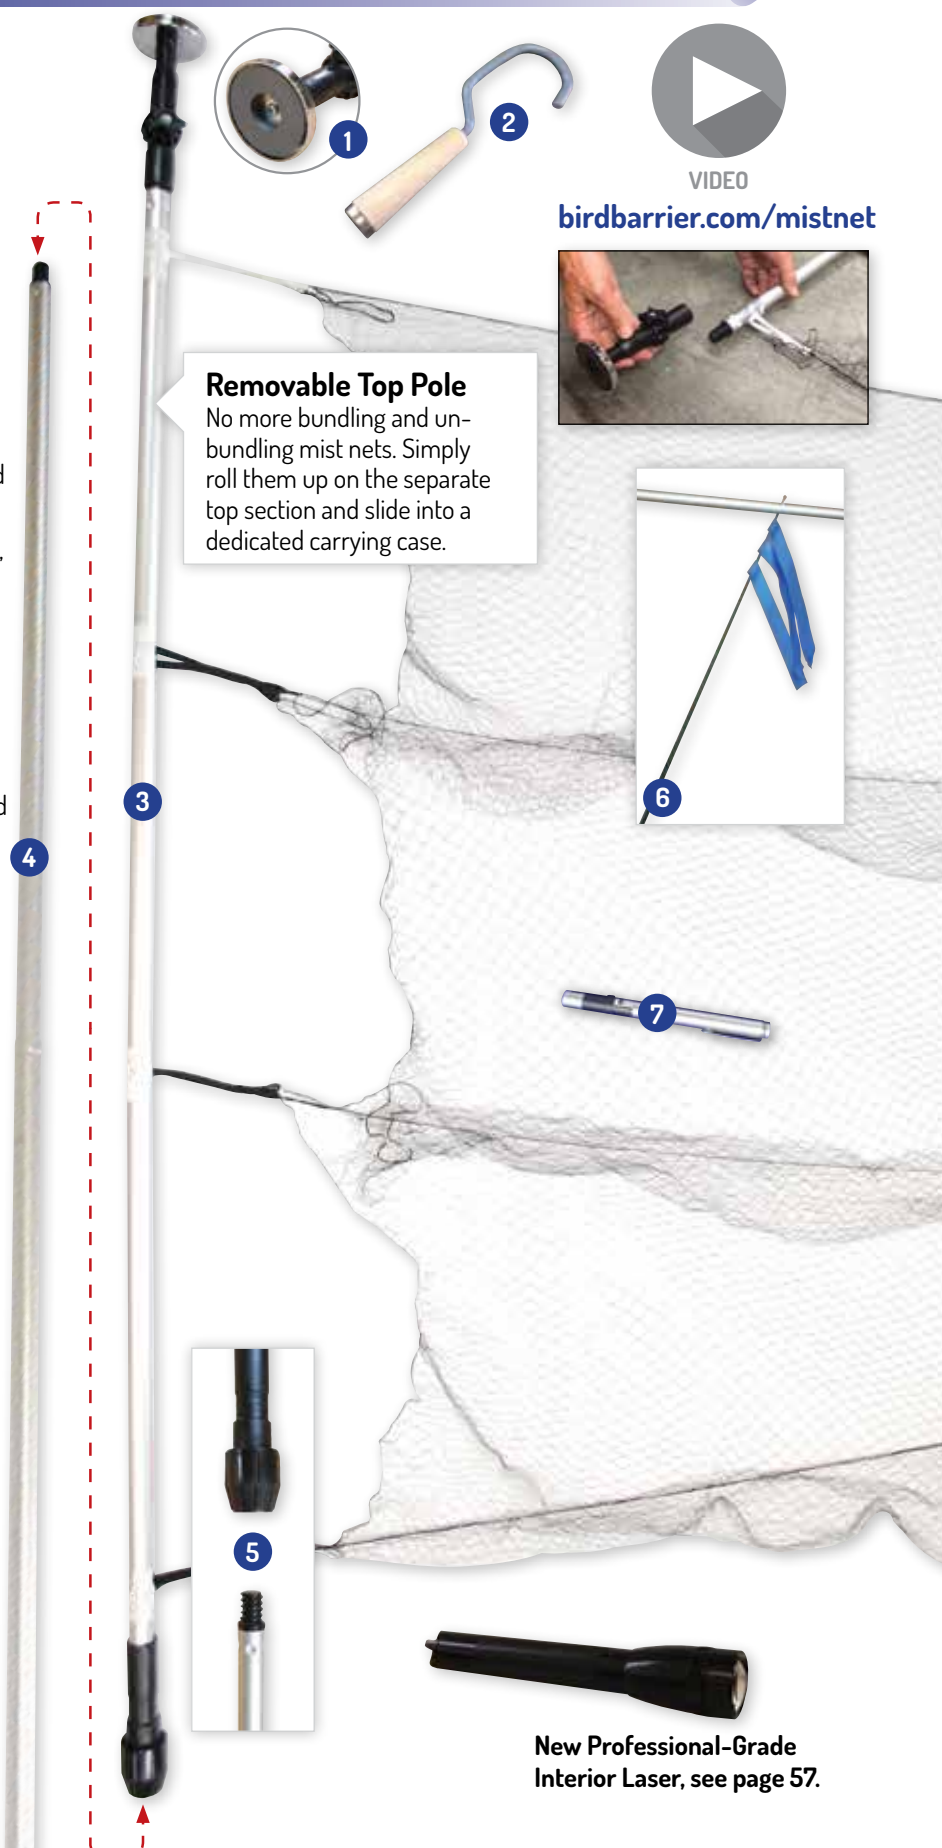

Bird Barrier's new Mist Net Kits minimize labor time and headaches through a series of innovations:

- 1 An angled 140-pound magnet locks to steel beams, shelves and pipes.
- 2 Rubber coated hooks are used to hang poles from pipes and conduit.
- 3 A removable, 60-inch top section enables users to simply roll up mist nets when done using them.
- 4 Telescoping 18-foot and 24-foot bottom-section poles deliver smooth cam-lock section control. And aluminum is far stiffer than fiberglass.
- 5 A locking coupler provides a strong link between the top section and telescopic poles.
- 6 Flexible fiberglass chase pole and painter's tape flag are an ideal way to chase birds toward the net.
- 7 Laser pointer reinforces the chase pole.

The mist net rolls up easily around the removable top section of the pole:

To ensure the netting will not tangle, roll it up on the pole with a sheet of plastic as shown above (otherwise it will not unroll). Make sure the edges of the netting are within the borders of the plastic sheet. Plastic sheet is included in the kit.

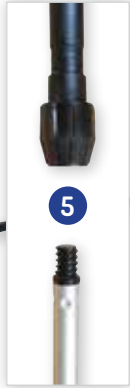

Removable Top Pole
No more bundling and un-bundling mist nets. Simply roll them up on the separate top section and slide into a dedicated carrying case.

Mist Net Kits - Fast to Deploy, Easy to Use

Bird Barrier has invested significant time in the field perfecting these Mist Net Kits. Emphasis has been placed on strength and rigidity, deployment speed, and effectiveness. The most significant development is undoubtedly the removable top pole which allows the operator to simply unroll the net; no more un-bundling a tangled net and attaching it to the pole every time.

Single Kit

22 ft. Mist Net Kit - One Set

- (1) Mist Net 8 x 40 ft
 - (2) Aluminum Extension Poles 18ft
 - (2) 60" Pole Tops
 - (2) Magnetic Angle Adapter
 - (2) Pole Top Hooks
 - (2) Locking Coupler
 - (1) Fiberglass Pole 19ft
 - (1) Laser Pointer
 - (1) Carrying Case
- N8-MNK11

28 ft. Mist Net Kit - One Set

- (1) Mist Net 8 x 40 ft
 - (2) Aluminum Extension Poles 24ft
 - (2) 60" Pole Tops
 - (2) Magnetic Angle Adapter
 - (2) Pole Top Hooks
 - (2) Locking Coupler
 - (1) Fiberglass Pole 19ft
 - (1) Laser Pointer
 - (1) Carrying Case
- N8-MNK12

Double Kit

22 ft. Mist Net Kit - Two Sets

- (1) Mist Net 8 x 30 ft
 - (1) Mist Net 8 x 40 ft
 - (4) Aluminum Extension Poles 18ft
 - (4) 60" Pole Tops
 - (4) Magnetic Angle Adapter
 - (4) Pole Top Hooks
 - (4) Locking Coupler
 - (2) Fiberglass Pole 19ft
 - (1) Laser Pointer
 - (1) Carrying Case
- N8-MNK8

28 ft. Mist Net Kit - Two Sets

- (1) Mist Net 8 x 30 ft
 - (1) Mist Net 8 x 40 ft
 - (4) Aluminum Extension Poles 24ft
 - (4) 60" Pole Tops
 - (4) Magnetic Angle Adapter
 - (4) Pole Top Hooks
 - (4) Locking Coupler
 - (2) Fiberglass Pole 19ft
 - (1) Laser Pointer
 - (1) Carrying Case
- N8-MNK9

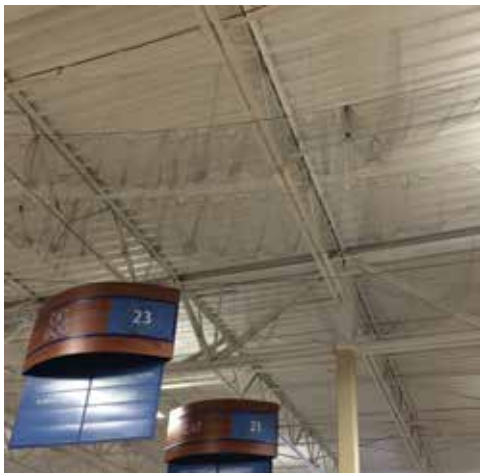

Magnetic Pole Top

Featuring 140 lbs. pull force, this is a fast, convenient way to secure mist net poles to beams, pipes and other metal surfaces.

Mist Net Items

7 x 20 ft. Mist Net	N8-MN10
8 x 30 ft. Mist Net	N8-MN15
8 x 40 ft. Mist Net	N8-MN20
18 ft. Aluminum Extension Poles	N8-TP05
24 ft. Aluminum Extension Poles	N8-TP10
60 in. Pole Tops	N8-TP20
Magnetic Angle Adapter	N8-MG01
Pole Top Hooks	N8-TP25
Locking Coupler	N8-TP30
19 ft. Fiberglass Pole	N8-TP00
Laser Pointer	N8-LP00
Small Carrying Case	N8-KC10
Large Carrying Case	N8-KC15

Mist Net in Place

When properly deployed, a Mist Net develops hanging pockets to catch the birds. When a bird is caught the net must be taken down immediately and the bird removed safely.
