SECTION 04: FIRST AID

EYE CONTACT ----Immediately flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Get medical attention if irritation persists

SIN CONTACT ---- Remove contaminated clothing. Launder clothing before reuse. Wash exposed area with soap and water. If symptoms persist, seek medical attention.

INGESTION.....--Immediately call a poison control centre or physician. Do not induce vomiting unless told to do so by a poison control centre or physician. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.

INHILATION -----If inhaled, remove to fresh air. If not breathing, give artificial respiration and obtain immediate medical assistance.

ADDITIONAL INFORMATION -----Treat symptomatically and supportively. Contains material that is an aspiration hazard. Potential danger from aspiration must be weighed against possible oral toxicity when deciding whether to induce vomiting.

SECTION 05: FIRE FIGHTING MEASURES

General Information..... As in any fire, wear a self-contained breathing apparatus in pressure-demand, MSHA/NIOSH (approved or equivalent), and full protective gear. Vapours may form an explosive mixture with air. Vapours can travel to a source of ignition and flash back. Use water spray to keep fire-exposed containers cool. Containers may explode in the heat of a fire. Vapours may be heavier than air. They can spread along the ground and collect in low or confined areas.

Extinguishing Media..... Carbon dioxide, dry chemical, foam.

SECTION 05: FIRE FIGHTING MEASURES

Hazardous Combustion Products..... mineral spirits, Isopropyl Alcohol

SECTION 06: ACCIDENTAL RELEASE MEASURES

General Information..... Use proper personal protective equipment as indicated in Section 8.
Spills and Leaks..... Large spills are not expected in packaging. However, if occurred through manufacturing or storage process, absorb spill with inert material (e.g. vermiculite, sand or earth), then place in suitable container. A vapour suppressing foam may be used to reduce vapours. Remove all sources of ignition.

SECTION 07: HANDLING AND STORAGE

Precautions for Safe Handling..... Wash thoroughly after handling . Use with adequate ventilation. Avoid contact with eyes, skin, and clothing. Empty containers retain product residue, liquid and/or vapour, it can be dangerous. Keep container tightly closed. Avoid contact with heat, sparks and flame. Avoid ingestion and inhalation. Do not pressurize, cut, weld, braze, solder, drill, grind, or expose empty containers to heat, sparks or open flames.
Conditions for Safe Storage including any ... Keep away from heat, sparks, and flame. Keep away from Incompatibilities sources of ignition. Store in a tightly closed container. Store in a cool, dry, well-ventilated area away from incompatible substances.
