Snap-E®

MOUSETRAP

BIG Snap-E®

RAT TRAP

Snap-E: The Ultimate Mousetrap

The Snap-E is a truly "better mousetrap." Easy to bait. Easy to set. Easy to Release. Place the baited Snap-E near a wall and pull back on the upright bar until it locks firmly in the catch.

Big Snap-E: The Ultimate Rat Trap

With the Big Snap-E, it's the end of the road for rats, gophers, chipmunks, ground squirrels and other pesky rodents. Two pre-formed holes in the trap base allow for surface mounting.

The Snap-E and Big Snap-E have many features and benefits:

- Vertical Strike Bar**- Travels half the distance of old-fashioned wooden traps. Making it easier to set and easy to release without touching the rodent.
- Pre-Formed Bait Cup**- Reduces bait stealing while attracting the ideal strike bar location.
- Large Trip Paddle**- Reduces premature tripping while insuring the catch from front, sides and back.
- Polystyrene and Steel Construction**- Durable. Easy to clean. Resists stains and odors. Economical and reusable for years of service.

SNAP-E AND BIG SNAP-E

Big Snap-E shown in AEGIS™ Modular Bait Station.
Aegis is a registered trademark of Liphatech.

EASY TO BAIT

Simply place bait in pre-formed bait cup.

EASY TO SET

Pull back slowly on upright bar until locked firmly in catch. Place trap next to wall near pest activity.

EASY TO RELEASE

Pull back slightly on upright bar until mouse is released.

CONSTRUCTION

Both traps are made of durable polystyrene and steel. They resist stains and odors, are easy to clean and can be reused for years of rodent control. They are simple, safe, sanitary and built to last.
