

# InVict Gold<sup>™</sup> cockroach gel

**Formulated with a Unique Bait Matrix and 2.15% Imidacloprid, InVict Gold Achieves Outstanding Palatability, Value and Lightning Fast Results**

Product Codes:

IGCG435: Box of four 35 g syringes

IGCG135: Individually boxed 35 g syringe

IGCG300: Single 300 g "Big Gun" syringe  
(fits standard caulk gun)

**Lightning Fast Cockroach Control**  
Roaches begin dying in as little as 20 minutes after eating the bait.

## **Proven Secondary Kill**

When roaches are exposed to carasses and droppings of roaches that ate the bait.

## **The Ideal Choice for Bait Rotation to Prevent Bait Aversion**

The unique food grade attractants are intentionally different from other popular baits.

## **The Perfect Bait for Sensitive Accounts such as Food Plants, Schools, Child Care and Health Care**

**Available in Fully Labelled Boxes of 35 g Syringes with Plunger and a 300g "Big Gun" Tube that Fits in a Standard Caulking Gun**

**17% More Bait Per Box when Compared to Four 30g Tubes Per Box**

**For Indoor and Outdoor Use**
