

HEAD PROTECTION

Fas-Trac® ratchet suspension

Bump Cap

This bump cap features a 4-point adjustable suspension system. Clearance between the shell and suspension is comfort-designed for maximum air circulation over the wearer's head. Note: Bump caps do not meet ANSI Z89.1 specifications and are not to be worn for protection from impact of falling or glancing objects. Color: White.

FE2400EA

Pith Helmet

This ventilated mesh helmet is lightweight and cool, with an additional coating for increased durability when wet. Headband is adjustable for head size and built-in sweatband keeps you comfortable in the heat. Color: Tan.

FE6350

V-Gard® Cap Style Hard Hat

V-Gard cap-style protective hard hats consist of a polyethylene shell and suspension that work together as a protection system. Meets or exceeds the applicable requirements for a Type 1 helmet (top impact) as outlined in ANSI Z89.1 2003, Class E. Third party certified by the Safety Equipment Institute (SEI). Stocked in Standard Size (size 6 1/2 to 8), in White and Yellow. Features 4-point, Fas-Trac® ratchet suspension.

FE2250S-Y or W

HEAD PROTECTION Welding Helmets

Switching Time: .000033 seconds from Light to Dark

Solar Powered Auto Darkening Welding Helmet

- Protects against UV and infrared radiation in variable shades from DIN 9 to DIN 13
- Lens automatically darkens when an arc is struck and returns to normal when welding stops.
- Powered by solar cells with battery back-up.

41260

Auto Darkening Welding Helmet

- Durable, lightweight material is corrosion resistant and flame retardant
- Clear vision both prior to and during welding for safety and higher work efficiency and quality
- Protects against UV and infrared radiation
- Automatic shut-off saves batteries
- Complies with DIN, ISO EN379 and ANSI Z87.1 standard
- 3.5" x 1.5" viewing area

41254

Wide-View Solar Powered Welding Helmet (Eagle/Flag)

- Protects against UV and infrared radiation in variable shades from DIN 9 to DIN 13
- Lens automatically darkens when an arc is struck and returns to normal when welding stops.
- Powered by solar cells with battery back-up.

41265

Wide-View Solar Powered Welding Helmet (Flame)

- Protects against UV and infrared radiation in variable shades from DIN 9 to DIN 13
- Lens automatically darkens when an arc is struck and returns to normal when welding stops.
- Powered by solar cells with battery back-up.

41266

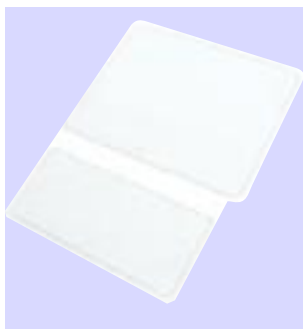

Replacement Lenses for Welding Helmet 41260

- Clear cover safety welding lenses
- Works with Vaper 41260
- Protect shaded lens from spatter and debris

Includes:

- 1 inner lens (4" x 2")
- 1 outer lens (4.5" x 3.5")

41264 Poly Bag

Clear Protective Replacement Lenses

- 2.125 x 4i viewing area
- Fits Tekz Welding Helmets # 41262, 41265, 41266, 41267
- Clear cover safety welding lenses
- Protect shaded lens from spatter and debris
- Includes both inner and outer lens

41261 Poly Bag - Master: 100 Inner: 25
