

LIGHTING

Streamlight Trident™ Flashlight

Xenon Bulb plus LED Technology

This lightweight hands-free headlamp includes an adjustable fabric head strap, 90° tilting head, spot-to-flood focus, and 3 levels of lighting for short, medium and long distances. **One white Xenon bulb and three LED's (2 white and 1 "night vision" green)**, water-resistant green thermoplastic body, rubber-shielded bezel and unbreakable polycarbonate lens. 3 AAA alkaline batteries included. Lifetime warranty. Weight: 5 ounces

ER61063

Streamlight Septor™ Flashlight

All LED Technology

A combination of 7 three-way adjustable brilliant white LED bulbs in this flashlight give you hands-free flexibility and long run time. Provides short range (1 LED – 120 hour run time), medium range (3 LED's – 72 hour run time) and longer range (7 LED's – 22 hour run time) lighting. Adjustable fabric head strap, 90° tilt movement, water-resistant thermoplastic yellow body, rubber-shielded bezel and unbreakable polycarbonate lens. 3 AAA alkaline batteries included. Lifetime warranty. Weight: 5 ounces.

ER61008

Streamlight Clipmate™ Flashlight

This compact, durable, water-resistant flashlight gives you hands-free operation in three different configurations – 1) as a clip-on light to a hat, straps or equipment, 2) clipped to the adjustable head strap, or 3) carried on its convenient neck lanyard. 360-degree rotation projects a white light from 3 super-bright LED's that is visible for over a mile away! 120 hours continuous runtime on 3 AAA alkaline batteries (included). An indispensable tool for all outdoor and industrial applications. Lifetime warranty.

ER61100

ProPolymer™ 3C Xenon Flashlight

High intensity Xenon bulb generates up to 12,000 peak beam candlepower. 5 hour continuous runtime on 3 C alkaline batteries (not included). Spring loaded clip, sealed switch, shock resistant polymer case, unbreakable polycarbonate lens. Waterproof, non-conductive, corrosion-proof. UL Class I, Division I. Lifetime warranty. Length: 8.55"

ER33001

ProPolymer™ 4AA Xenon Flashlight

High intensity Xenon bulb generates up to 6,000 peak beam candlepower. 4 hour continuous runtime on 4 AA alkaline batteries (included). Shock resistant polymer case, sealed switch, unbreakable polycarbonate lens. Waterproof, non-conductive, corrosion-proof. UL Class I, Division I. Lifetime warranty. Length: 6.5"

ER68002

ProPolymer™ 4AA LED Flashlight

Seven high-intensity, unbreakable LED's generate up to 27 lumens. 155 hour continuous runtime on 4 AA alkaline batteries (included). 100,000-hour LED lifetime. Shock resistant polymer case, sealed switch, unbreakable polycarbonate lens. Waterproof, non-conductive, corrosion-proof. UL Class I, Division I. Lifetime warranty. Length: 6.5"

ER68005

Stylus™ LED Penlight

This ultra-slim, powerful penlight is cased in tempered aircraft aluminum with black anodized finish. The high-intensity 12,000 millicandelas white LED has a 100,000-hour lifetime. 10 hours continuous runtime with 3 AAAA alkaline batteries (included). Water-resistant. Blink or constant on switch. Removable tip guard for focusing the beam is included. Lifetime warranty. Length: 6.2"

ER65018

Streamlight® Stinger® Rechargeable

Rechargeable 3.6 volt, 1.8 amp nickel-cadmium battery can be recharged up to 1,000 times. Runtime is 1 hour continuous use between charges. Xenon bulb produces 15,000 candlepower. **Includes two 10-hour snap-in recharger holders with AC and DC charge cords.** Black anodized aluminum housing, unbreakable polycarbonate lens. UL Listed. Lifetime warranty. Length: 7.4"

ER75014

Streamlight® UltraStinger® Rechargeable

When you need a powerful light, this Xenon bulb flashlight produces 75,000 candlepower! The NiCad 6 volt, 1.8 amp battery is rechargeable up to 1,000 times. 1 hour of continuous runtime between charges. Black anodized aluminum housing is corrosion proof inside and out. Unbreakable, focusable polycarbonate lens. **Includes two 10-hour snap-in recharger holders with AC and DC charge cords.** Lifetime warranty.

ER78014

High-Intensity Warning Strobe

Ideal for road emergencies or warning beacons on slow vehicles like sprayers, grain wagons and tractors!

Easily moved – no need to hard wire each piece of equipment. High intensity flash is visible for over 1 mile in clear conditions. Flashes 70 times per minute with 300 candelas of brightness. Heavy-duty bulb sits on an internal shock absorber to withstand jarring under rugged conditions. Gasketed, high-impact housing keeps out rain, snow and moisture. Three heavy-duty magnets keep unit in place at speeds as high as 90 mph. Lanyard allows it to be carried like a lantern. Push button switch. Two standard D batteries (not included) deliver 48 hours of continuous flashing. Dimensions: 5 1/4" tall, 4" diameter base.
