

BirdSlide™

WHERE TO USE	Ledges, eaves, angle irons, I-Beams and most "L" shaped ledges where total exclusion is the goal.
TARGET BIRD	All species, including Swallows
BIRD PRESSURE	All pressure levels
MATERIAL	UV-stabilized Polycarbonate
INSTALLATION	Base is glued to any surface
INSTALLATION LEVEL	Easy to Moderate

Installation video at www.birdbarrier.tv

Parking structures with hundreds of similar ledges are fast and easy to protect with BirdSlide.

What used to be a protected roosting area is now completely protected. Birds can't even land here.

*BirdSlide can be a great deterrent for swallow nests when it's installed at an inverted angle.**

When Total Exclusion is a Must

There are ledges where heavy pressure (nesting birds) demands an exclusion system, and netting may be visually unacceptable. BirdSlide completely protects the ledge against all bird species; they simply can't get a grip and "slide" right off the ledge.

Designed to Disappear

When color matched to the structure, BirdSlide usually looks like it's a part of the building. It comes in gray or beige, but can be primed and painted (by the customer) to match any color.

Easy to Install

For ledges six inches, the flat base simply glues to any clean surface using Bird Barrier bond. For narrow ledges the "fin" can be trimmed down; for wider ledges an extension can be added. BirdSlide can be screwed to wood.

Long-Lasting

Made from UV-stabilized polycarbonate. Two-year warranty against UV breakdown. Paint the product to extend its life.

Customizable

BirdSlide can be ordered in lengths up to ten feet (extra freight charges will apply), and it can be painted to match the structure.

Ledges between the beams are an ideal application for BirdSlide.
**Inverted application is not recommended for wide eaves.*

If adding a third extension as shown here, please contact a Bird Barrier representative for advice on providing proper support.

**Inverted application is not recommended for wide eaves.*

BirdSlide

BirdSlide is sold by the 52-foot case. Each case contains 13 four-foot sections. BirdSlide comes in 4-foot lengths.

BirdSlide Beige (52 ft.)	SL-B00	639848
BirdSlide Gray (52 ft.)	SL-G00	639846

Slide-on Extensions

For wider ledges (see photo at bottom of page), BirdSlide Extensions can be added to increase the size and coverage. Extensions are 6" wide, and now they just slide on to the top of the BirdSlide. This is a fast and easy process which looks attractive and professional.

Beige Extension (52 ft.)	SL-B20	674212
Gray Extension (52 ft.)	SL-G20	645201

End-Caps

Color-matched end-caps enable the applicator to install a seamless, attractive solution. The tube slides snugly into the triangular base opening. Simply glue them in and you're done (sold in a pack of 5 right and 5 left end caps).

Small for standard 6" BirdSlide (B) in photo below left		
Sm. End-Caps Beige (5 pairs)	SL-B10	639870
Sm. End-Caps Gray (5 pairs)	SL-G10	638206
Large for 6" BirdSlide plus one extension (C) in photo below left		
Lg. End-Caps Beige (5 pairs)	SL-B15	635331
Lg. End-Caps Gray (5 pairs)	SL-G15	674221

Bird Barrier Bond

Bird Barrier Bond should be used to glue down BirdSlide to clean surfaces. Application Guidelines: 10.2 oz. bond installs 25 ft.

New Bond 10.2 oz. (ea.)	HA-BB03	776954
E6100 Clear 10.2 oz. (ea.)	HA-BB04	776732

See page 25 for important Bond information.

BirdSlide Seam Connectors

Gaps can appear between sections of BirdSlide when mounting to uneven surfaces. These extruded "H" strips lock the ends together and fill in the seam.

6 in. Beige Connectors (12 pk.)	SL-B25	654744
12 in. Beige Connectors (12 pk.)	SL-B30	784638
6 in. Connectors (12 pk.)	SL-G25	649941
12 in. Gray Connectors (12 pk.)	SL-G30	784639

BirdSlide Mounting Clip

Used to support BirdSlide when it is installed in the eaves to deter mud nests. Can also be used to secure the top edge to the structure when BirdSlide is installed on a ledge.

Mounting Clip (100)	SL-SC00	674218
---------------------	---------	--------

(A) Ledges 3" to 6" Wide

Cut the trim area at the appropriate width.

(B) 6" Ledges

Use BirdSlide exactly as it comes out of the box.

(C) Ledges Wider than 6"

Attach these special extensions for even wider coverage.

- » BirdSlide up to 10-feet long. Custom ordered.
- NOTE: extra freight will be charged for dimensional weight.
- » Custom primer and painting available to match any paint chip.
- » Call for details.

(D) Eaves

BirdSlide can be installed under eaves to exclude mud swallows. It can easily be cut to accommodate beams and other building features.
