

# STOP Voles!

A Green Solution to get rid of  
& prevent vole damage

EPIC now offers professionals  
protection for turf, gardens  
and landscaping from  
unwanted voles.

Long lasting  
High Performance Formula

## How can we help?

EPIC, the leading natural repellent manufacturer, offers granular professional grade vole repellent. This unique formula was designed and tested to stop and then prevent vole damage. It effectively protects turf, golf courses, lawns & gardens and safe for people & pets.

Voles feed on above and below ground plant parts such as foliage, seeds, stems, roots and bulbs. Voles can ruin lawns, golf courses, and ground covers through feeding and when they build extensive runway and tunnel systems. Voles can pose a problem for your lawn, wooded landscapes, plants and bulb gardens. Voles may cause extensive damage due to their girdling of seedlings and mature trees. Girdling damage usually occurs in fall and winter. Voles often live along with moles and travel in mole tunnels and runs. Moles do not eat plant material. Voles do.

**How does it work?** Vole Scram Professional is a proprietary blend of all natural ingredients specifically designed to reduce & eliminate vole activity with both bad smell and taste. This repellent is the only one specifically formulated just for voles! It's easily spread over infested areas.

## What you should know.....

- Vole Scram Pro repels voles and alters their environment in two ways:
  - Food tastes bad and their digestive system is disturbed.
  - Tunnels & surrounding soil become bad-smelling.
- Vole Scram Pro's formula is long lasting – at least 30 days of repellency.
- Vole Scram Pro is 25(b) exempt from EPA registration.

**Focus on Peak Application Times**  
Voles are active throughout the year but cause the most damage in winter. Most effective preventative is late fall - early winter before snow cover.

Vole Habitat in USA	
<span style="display: inline-block; width: 15px; height: 15px; background-color: #d3d3d3; border: 1px solid black;"></span> California vole	<span style="display: inline-block; width: 15px; height: 15px; background-color: #e67e22; border: 1px solid black;"></span> Oregon vole
<span style="display: inline-block; width: 15px; height: 15px; background-color: #e74c3c; border: 1px solid black;"></span> Long-tailed vole	<span style="display: inline-block; width: 15px; height: 15px; background-color: #3498db; border: 1px solid black;"></span> Prairie vole
<span style="display: inline-block; width: 15px; height: 15px; background-color: #f1c40f; border: 1px solid black;"></span> Meadow vole	<span style="display: inline-block; width: 15px; height: 15px; background-color: #9b59b6; border: 1px solid black;"></span> Pine vole
