Mantis® 1x2

3 YEAR WARRANTY · 3 YEAR WARRANTY · 3
3

Attractive and stylish wall mounted system:

Populations of smaller flies are on the increase, putting jobs and reputations on the line. The attractive ultra-slim Mantis® 1x2 Insect Light Trap (ILT) catches all sizes of flies, especially the smaller ones that may be missed by traditional bug zappers. Available in both white and stainless steel, it is ideal for all extra sensitive locations. The Mantis® 1x2 meets all FDA, USDA and food legislation requirements and guidelines and is UL listed.

Mantis® systems are ultra-slim, easy to maintain, compact and unobtrusive and only require an occasional change of glue boards. With the Mantis® 1x2, insects remain intact when caught in the capture zone. No noise, no smell, no problem. This allows the systems to be placed closer to sensitive areas.

- Patented Reflectobakt® sleeves increase attractiveness to insects and slows the drying of the glue board – longer board life and slimmer design
- Two high-powered low mercury, **lead-free** 15-watt Quantum BL shatter resistant ultraviolet lamps – 100% more effective, 40% more powerful than standard UV lamps
- Strategically positioned full-size black glue board - Highly effective for insects of all sizes adds discretion to your catch.
- Plastic boards for high moisture areas, **60-day** universal boards in "High Def" white and discretion black for a wide variety of uses.
- Gray matrix glue boards for easy monitoring and insect density counts. Boards can be retained to provide an accurate record of infestation levels for HACCP audits
- Interchangeable glue boards and lamps with other Mantis® systems – minimize stocking requirements and exceptional performance and value
- Durable Midnight black, white powder-coated Zintec steel or brushed stainless steel craftsmanship – extra long life and years of dependable service
- Easy to remove bottom tray, drop-down guard and front cover – quick and easy no tool service
- Versatile mounting options, wall or freestanding bracket available – ease of placement
- Low mercury, lead-free 15-watt Quantum BL standard lamps are readily available.
- 3-year warranty (excluding boards and lamps) – replace annually for maximum effectiveness

Discretion covers only

So you don't want to see inside the Mantis because the placement is in a public area. The discretion cover is an option to transform any 1x2 or 2x2 into a discreet insect light trap suitable for any public area. Retro fits **(after 2012 models ONLY)** easily with no additional tool required. Available in White, Stainless Steel and Gray (for the MAX 50).

See below for easy install instructions or call us at 866.476.7378:

Product code	Use Description	# per pallet	Net unit	Shipping weight
MEF301X2COVWH	White Cover Only	n/a	Each	3 lbs (1.3Kg)
MEF30SST1X2COVWELL	**1x2 Stainless Steel** Discretion Cover Only	n/a	Each	3 lbs (1.3Kg)
MEF301X2MCOVGRAY	**1x2 MAX 50** Discretion Cover Only	n/a	Each	3 lbs (1.3Kg)

Always unplug system before attempting any maintenance or retro fit.

Carefully remove the front grill by slightly bending the tabs at the base of the grill outward from the punched holes and pull away.

Reverse the action with the new discretion cover.

Your new 1x2 discretion is ready to go to work.

Same procedure for the Mantis 2x2
