

BirdBarrier[®]

Optical Gel[™]

Optical Gel keeps all birds off all structures without harming them. It does so by altering their behavior, not by acting as a physical barrier. Once applied, birds will completely desert a habitat, even one they have been using for years.

Optical Gel is applied in low-profile application dishes, only 8mm high. It has successfully repelled birds from protected "heavy pressure" sites, and is ideal for sites where mechanical deterrents can't be used.

What Birds See

The ultraviolet light spectrum appears to birds as fire.

What You See

Multi-Sensory Bird Repellent

SIGHT » Birds see fire or smoke, although there isn't any

SMELL » Birds smell peppermint oil, which they hate

TOUCH » Sticky if they do touch it

Skylights

HVAC Equipment

Balconies

Soffits for Mud Swallows

Easy to Apply, and Effective

- 2 - 4 years of effectiveness (site must be thoroughly cleaned first)
- Pre-loaded dishes are fast and easy to install
- Secure to the surface with a small dab of silicone
- Firm density won't run, even mounted upside down
- Use anywhere, especially where mechanical systems like netting and spikes aren't optimal
- Resistant to high & low temperature, rain & snow
- Minimum Risk Pesticide, FIFRA Exempt
- 24 dishes per pack
