- MATERIAL** Stainless Steel - 304 grade wires & base welded together
- INSTALLATION** Base is glued or screwed to any surface
- INSTALLATION LEVEL** Easy

Install with Bird Barrier Bond, p. 23.

Installation video at www.birdbarrier.tv

Dura-Spike can be snipped to accommodate smaller surfaces like this pillar.

The flexible base allows Dura-Spike to curve over the top of this sign, keeping it bird-free.

Two rows of Dura-Spike Wide amply protect this wide parapet cap.

Easy Application

Dura-Spike is an all stainless steel spike that comes in three-foot lengths for quick and easy application. The base can be cut easily with snips or shears. Dura-Spike bends easily allowing it to easily accommodate curves and irregular surfaces conforming easily to the building's features.

How it Works

Pigeons and larger birds are not able to gain a foothold on the protected surface and are forced to take their mess elsewhere.

How to Install

Use the spacing guides (right) to determine the best model for the application. Clean the surface thoroughly, Secure using Bird Barrier Bond (see page 25) or screw it down.

Warranty

Dura-Spike is warranted for ten years and should perform for many more.

Totally Humane

The blunt tips on the ends of each spike cannot hurt birds or humans.

Space Saving Packaging

Dura-Spike stacks neatly, one row nesting neatly inside of another offering smaller boxes that take less room in the service vehicles.

Narrow

Wide

Xtra-Wide

Dura-Spike

Each piece = 3 ft. Each case = 34 pieces (102 ft.)

Narrow 2 1/2" (3 ft.)	BP-S200	786505
Wide 5" (3 ft.)	BP-S400	786506
Xtra-Wide 8" (3 ft.)	BP-S600	786504

Price Breaks for Bulk Quantities

Save extra money when you buy in these quantities:
