

Scope of Service

# FOAM FRESH™

## INTRODUCTION

Foam Fresh is a bio-remedial and odor eliminating aerosol. It works by encapsulating odor molecules and consuming organic matter. Its unique action allows for broad use patterns. With the use of Fresh Foam, an assortment of extra service opportunities can be created, including an ad hoc drain service or an odor eliminating service, making upselling the customer easier.

## PRODUCT USE

**Animal Odors:** Animal odors associated with urine and feces can be eliminated using Foam Fresh. Spray directly on soiled area. Spray liberally and allow to settle. Reapply after 24 hours if necessary. Perfect for bird droppings and bat guano. Foam into wall voids to help eliminate odor from infestations.

**Commercial Kitchens:** Spray floor and sink drains, bar wells, soda drains, etc. during each service visit. Use Foam Fresh as a regular application to maintain sanitation. Foam Fresh extension tube can be used to foam into drains.

**Bar drains and bar mats:** Spray these areas at the end of last shift to help eliminate beer odor build-up.

**Dishwashers:** Dishwashers can be a source of organic buildup, particularly in older models. Spray areas around drains where food particles collect.

**Entry Rugs:** Entry rugs contain dirt and grime. Spray entire rug surface at the end of day.

**Garbage Receptacles:** Spray the edges and undersides of lids. This helps break down residual residue. Spray bottom of containers immediately after they are emptied.

**HVAC:** To remove musty odors from HVAC systems, spray Foam Fresh on return air vents to alleviate musty odors from ductwork and to keep whole structures smelling fresh.

*Use Foam Fresh in sink drains to reduce odors and FOG (fats, oils and grease) build-up.*

*Spray entire mop head after use to eliminate sour odors.*

*Spraying directly into urinals will eliminate offensive urine odors.*

**Mops:** Mops harbor bacteria and small organic matter, and are a consistent source of odor. Spray entire mop head after each use.

**Urinals and Toilets:** At the end of each day, spray directly into each unit. This will help eliminate odors and prevent organic buildup. Flushing afterwards helps clean piping and facilitates sanitation. Spray the floors in front of urinals.

**Lockers:** Spray empty lockers once a week to keep changing areas smelling fresh.

**Dirty towel receptacles:** Spray the top layer of towels every day to eliminate odors

**Wildlife Traps:** Spray Foam Fresh in areas where live animal or carcass was present. Great for skunk and dead rodent odor.

**Service Vehicles:** Spray liberally on floor mats and allow to sit overnight. Repeat as needed.

*Help keep lockers smelling fresh so gear and food odors aren't left behind.*

*Spray service vehicle mats at the end of the day.*

*Use Foam Fresh for quick hits on floor drains between major cleanings to help reduce buildup and odors.*

*Convenient and effective for treating pet accidents.*

***Foam Fresh can be sold to commercial accounts and homeowners.***

***Always read, understand and follow product label instructions.***
