Made in the U.S.A.

DUMPSTERGUARD

- Rich bacterial blends combined with an essential oil fresh scent assures optimal efficacy within harsh environments
- Safe for use on all types of trash cans, trash bins, dumpsters and surrounding areas, high rise trash chutes, garbage trucks, compactors and many others
- No scrubbing or rinsing required
- For indoor and outdoor use

BIO-GEL® PRO FOAM

- High expansion foam to effectively remove organic build-ups
- Improves drain flow and safe for all drain lines
- Reduces foul odors in drains.
- Ready-to-use. Just use the foaming trigger included

Areas of use: drains, toilets, holding tanks, grease traps, septic systems, and many others.

BIO-GEL® PRO DOSE

- Field-proven automatic inline injection system
- Ideal for use with Bio-Gel for drain lines and grease traps
- Available in pail mount (shown as picture) and wall mount
- Work with 110v AC or batter power
- Time and dose control

MOP WATER ADDITIVE

BIO-GEL® PRO KLEEN

- Biological mop water additive and floor cleaner
- Advanced surfactants blended with superior microbial technology makes Bio-Gel Pro Kleen the preferred product for restaurants, hospitality, institutional, and industrial applications
- Simply add it to mop water and let it go to work!
- Keeps mop heads fresh
- Quick dry and non-slippery formula
- Optimally reduces organic debris build-up that causes foul odors

BIO-GEL®

- Superior, high shear cling gel (thickened formulation) for optimum adhesion within active floor drain systems
- Improves drain flow and safe for all drain lines
- Reduces foul odors in drains

Areas of use: drains, toilets, holding tanks, grease traps, septic systems, and many others.
