Kleenguard® Select Coveralls

Made from abrasion-resistant, breathable material designed to reduce heat stress and let perspiration escape. Seams are placed at the back of the suit for greater protection in the frontal exposure area. Ideal for use with dry chemicals and limited liquid splash applications

– dry pesticide and fertilizer applications, light spraying applications, grinding and paint spraying. Blue color masks dirt and grime. Available in L, XL and 2XL – with or without a hood.

Tychem® SL Saranex®-Coated Tyvek Apron

This rugged and durable apron provides frontal splash protection at low cost. Saranex 23-P coating furnishes a broad range of acid, chemical and pesticide resistance. Bib style, lightweight construction with bound neck and ties. Dimensions: 28" x 36" Compliance: EPA 40 CFR 170. One size fits all.

BW1970EA

Tychem® SL Saranex®-Coated Tyvek Sleeved Apron

Maximize chemical protection against Class I through Class IV pesticides and reduce heat stress. Complete frontal protection yet cooler than coveralls. This all-in-one apron has bound seams around sleeves, neck and closure and elasticized wrists to resist chemical exposure from neck to knees. Meets EPA requirements for a chemical-resistant apron. Dimensions: 26"x52". Compliance: EPA 40 CFR 170. One size fits all.

BW1975EA

PVC Bib Chemical Apron

This apron is chemical resistant with excellent resistance to Class I through Class IV pesticides. Durable, 20 mil construction features sturdy grommets and extended length string ties for versatility in sizing. Compliance: EPA 40 CFR 170. One size fits all.
