## INTELLIGENT DESIGNS

When dependable and long-lasting performance is important choose EATON® Tamper-Resistant Bait Stations:

### STRONGBOX™ #910TP Tamper-Resistant Rat Size Galvanized Steel Bait Station

This rugged, tamper-resistant bait station is built to take the wear and tear that comes with daily professional use over extended periods ... both indoors and outdoors.

**STRONGBOX™ #910TP Rodent Size Bait Station** • Fabricated of heavy-duty galvanized steel, this station features a seamless base for added strength. Holes in the base enable it to be secured with a EATON® #914 Cotter Pin Securing Stake. Also, included is a black plastic insert tray to simulate darkness and to aid in quick servicing of the station. There are separate compartments for bait or water. Bait securing rods provide for added bait security. This design is suited for placement flush against walls, with the entry points in direct line with the path rats prefer. Packed 12 per case, with 1 hex key, 12 bait holder rods, 6 locator signs, 12 POISON/VENENO labels and 12 Stainless Steel, metal-to-metal fasteners.

**#914 Cotter Pin Securing Stake** • Special metal anchoring stakes are designed for outdoor installation of all bait stations.

Packed 12 per case. Cotter pin and washer are included. •*Not for concrete use*
