**3/4" Mesh
All Birds**

**Ideal for
Pigeons!**

**1-1/8" Mesh
Starling / Pigeon**

**Ideal for
Large Birds!**

**2" Mesh
Pigeon/Seagull**

Heavy Duty Bird Netting is most effective when installed properly. Improper installation can lead to sagging or drooping of the net, leading to gaps that birds can get in through. We recommend that a cable be set up around the perimeter of the area being netted off, and the net attached to this cable. Bird-B-Gone offers a complete line of hardware to accommodate any netting job.

- **40lb. Burst Strength! - ISO 1806 Protocol Tested!**
