

THE MOST POWERFUL

BIO-REMEDIAL ODOR CONTROL FOAM

IS NOW AVAILABLE — SO SPRAY AWAY!

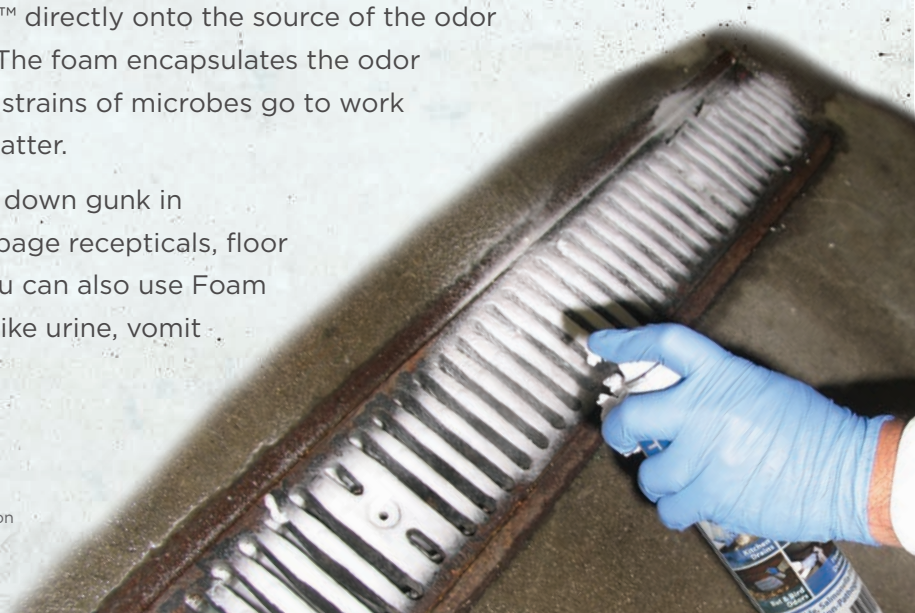

Pest technicians are called to fix some pretty nasty problems, and lots of those situations also have significant odors.

Now you can eliminate organic-based odors and organic buildup just as professionally as you kill the pests.

Simply spray Foam Fresh™ directly onto the source of the odor and watch it go to work. The foam encapsulates the odor molecules, then its seven strains of microbes go to work consuming the organic matter.

Use Foam Fresh to break down gunk in commercial kitchens, garbage receptacles, floor drains and sink drains. You can also use Foam Fresh to eliminate odors like urine, vomit and feces.
