Also kills Exposed Thrips, Leaf-Hoppers, Aphids, Rose Midges and Leaf Eating Caterpillars on outdoor ornamental plants.

ACTIVE INGREDIENT: Permethrin...0.25%

REG. NO. 26140 P.C.P. ACT

NET CONTENTS: 350 - 650 grams

CAUTION EXPLOSIVE
READ THE LABEL BEFORE USING
KEEP OUT OF REACH OF CHILDREN

753146 AB Ltd. o/a UltraSol Industries
10755-69 Avenue
Edmonton, Alberta, Canada
T6H 2C9
1-780-432-6535

Continuous cockroach killing action for 60 days
For use as a spot or crack and crevice treatment to control insects listed on front panel.
Sprays in all directions – even upside down for hard to reach areas.

DIRECTIONS FOR USE

General Information: Permethrin is a synthetic version of pyrethrins. Pyrethrins have long been known for rapid knockdown of insects. Although permethrin is more stable than pyrethrins, it is still degraded by the ultraviolet rays of the sun. This results in a relatively short residual life in the presence of sunlight. When protected from the sun, permethrin will provide residual/long lasting activity.

Doktor Doom House and Garden Insecticide Spray is ready to use. **SHAKE WELL BEFORE USING.** Within the specified use location, to enhance effectiveness of this product, apply this product directly to the listed pest where possible. Hold container approximately 30 cm from surface being sprayed and spray until wet. Unpainted or unsealed concrete surfaces may require repeated application after 2 weeks if necessary. Good sanitary practices should be maintained to prevent re-infestation.

Restrictions: DO NOT apply to any body of water. DO NOT contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes. Avoid application of this product when winds are gusty. DO NOT contaminate food/feed. DO NOT apply to surfaces that may come into contact with food/feed. DO NOT apply when people, pets or livestock are present. DO NOT allow people, pets or livestock to enter treated areas until sprays have dried. DO NOT allow spray to drip or allow drift onto non-target surfaces. DO NOT apply to people, pets, livestock or sources of electricity. Unless otherwise stated on this label, DO NOT apply to furniture (excluding bookcases and storage furniture), mattresses, linens, toys or clothing. When applied indoors, DO NOT apply to overhead areas or in confined spaces (for example, attics, crawlspaces). When applied indoors, ventilate treated areas after application by opening windows and doors or using fans, where required, to aid in the circulation of air. When applied outdoors, DO NOT apply in areas where plants are grown for food or feed (e.g., vegetables, fruit, herbs). DO NOT apply as a space spray or broadcast application.

The application of this product to vinyl and aluminum siding (particularly lightly colored, aged, weathered or otherwise damaged) may result in staining, bleaching or discoloration. Factors such as extreme heat and direct sunlight can promote damage. Before applying, treat a small area of the siding and evaluate 30 minutes later to allow any potential staining to occur. Regardless of the test results, do not apply to vinyl or aluminum siding while exposed to direct sunlight or during the heat of the day. This product may stain or damage certain plastic, rubber and asphalt materials such as tiles, floor covering and carpets. Apply with caution to surfaces and avoid excessive wetting. Do not apply to tapestries, wall paper or similar materials that may stain. Do not apply to draperies, wallpaper or similar materials that may be stained. For all other surfaces, test a small inconspicuous area of the surface to be treated for color fastness & staining before full application.

How to Apply: DO NOT APPLY AS A SPACE SPRAY OR BROADCAST APPLICATION. Apply as a crack and crevice, or spot treatment only to kill pests listed on this label. Spot treatment is localized to surface area not more than 0.2 m². Spots are not to be adjoining and the combined area of spots is not to exceed 10% of the total surface area of a room. Crack and crevice is an application directly into narrow openings on the surface of the structure. It does not include the treatment of exposed surfaces. Narrow openings typically occur at expansion joints, utility entry points and along baseboards and mouldings.

Instructions for use inside buildings:

To Kill Ants, Cockroaches, Earwigs, Silverfish, Sowbugs, and Spiders: Thoroughly treat inside building surfaces, including cracks, crevices in walls, floors and ceilings; along and behind baseboards; around water pipes and tanks; walls behind and floors beneath appliances (e.g., refrigerators and stoves) and furniture (e.g., shelves, drawers, cabinets and storage units); around sinks, drains and pipes; around garbage containers; around interior foundations; localized area around garbage cans; localized areas of floors and floor coverings and points of entry (e.g., around windows and doors). For silverfish, also spray the cracks and crevices in bookcases. Remove all objects before treatment of bookcases where books, clothing, toys, towels and other items are stored. Treated bookcases must be dry before replacing stored items. For ants, also spray trails and nests. Treatment must only be repeated after 7 days if pest problem persists or reoccurs.

To Kill House Flies: Spot treatment only. Spray inside building surfaces around points of entry (e.g., screen frames, doors and window frames), around light fixtures and to localized areas of walls, floors and ceilings. House flies will be killed when they land and crawl on the treated building surfaces. Treatment must only be repeated after 7 days if pest problem persists or reoccurs.

2019-6612
2020-06-09

To Kill Fleas (Adult and Larvae) and Brown Dog Ticks (Adult and Nymphs): DO NOT apply to furniture, mattresses, linens, toys or clothing. Apply to indoor building surfaces, including cracks and crevices in walls and floors, along and behind baseboards, window and door frames, and localized areas of floor and floor coverings. Pet bedding may be entirely treated with this product and replaced with clean, fresh bedding after other listed areas are treated. Treatment must only be repeated after 7 days if pest problem persists or reoccurs.

DO NOT SPRAY PETS WITH THIS PRODUCT. Only treat pets with products specifically registered for use on that type of pet. For effective flea and tick control indoors, clean any area used by the pet. Cleaning the areas includes vacuuming floors, carpets, furniture, etc. (discard vacuum bag after use) and washing the pet's bedding, living quarters, and surrounding area.

To Kill Bed Bugs: DO NOT apply to the mattress, headboard, footboard or furniture. Apply to inside building surfaces including, cracks and crevices in the walls, floors and ceilings; along and behind baseboards and moldings; and localized areas of walls behind and floors beneath furniture (e.g., bed and nightstand). To enhance effectiveness of this product, apply this product directly to bed bugs where possible. Treatment must only be repeated after 7 days if pest problem persists or reoccurs.

Outdoors on the exterior surfaces of buildings and patios, porches, and decks:

To Kill Ants, Fleas, House Flies, Spiders, Sowbugs and Brown Dog Ticks: For use outdoors on the exterior surfaces of buildings and on patios, porches and decks. Apply to the outside surfaces of foundations, under eaves troughs, around light fixtures, and places where listed pests enter (e.g., screens, doors, window frames). This product may also be applied to garbage cans and localized areas of patios, porches and decks. For house flies, apply as a spot treatment only. Houseflies will be killed when they land and crawl on the treated surfaces. For ants, spray onto ant trails, into ant nests and points of entry. For spiders, apply the exterior surfaces of buildings and on patios, porches and decks including under eaves, awnings and canopies. Treatment must only be repeated after 14 days if pest problem persists or reoccurs.

For use on outdoor ornamental plants:

To kill Sucking Insects: Exposed Thrips, leaf-hoppers, aphids, rose midges.

To kill Chewing Insects: Leaf Eating Caterpillars.

For listed insects on Asters, Azaleas, Begonias, Chrysanthemums, Dahlias, Delphiniums, Gladioli, Irises, Marigolds, Petunias, Roses, and Snapdragons. Evergreens, small Deciduous trees, shrubs and vines: Carefully spray with slow sweeping motion keeping 30 cm to 45 cm away from the plants to avoid wetting the foliage. A light spray kills listed pests effectively. Spray only when air is still and temperature is under 32°C. Do not spray in direct sunlight – early morning or evening preferred. Use with caution on young plants and new growth. Listed insects must be contacted by spray to be killed. DO NOT apply to plants grown for food or feed (e.g., fruits, vegetables, herbs) or in areas where these plants are grown). Treatment must only be repeated after 14 days if pest problem persists or reoccurs.

PRECAUTIONS

KEEP OUT OF REACH OF CHILDREN. Contents under pressure. Do not place in hot water or near radiators, stoves or other sources of heat, or store at temperatures over 50°C. Cover fish bowls when spraying rooms. Avoid contact with skin, eyes and clothing. Avoid inhalation of spray. Wash after using. Keep from freezing.

ENVIRONMENTAL PRECAUTIONS

DO NOT apply to flowers in bloom. Toxic to aquatic organisms. Toxic to birds. Toxic to bees. Toxic to beneficial insects.

FIRST AID

If swallowed: Call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person. **If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice. **If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice. **If in eyes:** Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first

2019-6612
