

# 3-D

## Post-Emergent Herbicide

Excellent selective control of broadleaf weeds in turfgrass on golf courses, residential turf and sod farms as well as non-crop areas such as highways and rights-of-way. A combination of two phenoxy herbicides and dicamba, 3-D provides including dandelion, clover, henbit and plantains.

**Formulation:** Liquid post-emergent herbicide

### Features & Benefits

- Powered by a 3-way combination of active ingredients: 2,4-D, mecoprop-p and dicamba for dependable broadleaf weed control.
- Ideal for both cool- and warm-season turf.
- Flexible use rates for problem control and maintenance applications and compatible for tank-mix with most liquid fertilizers and iron.

### Active Ingredient

2,4-D, Mecoprop-p, Dicamba

### Effective Against

Clover, Dandelion, Plantain, Henbit, Purslane, Ragweed

### Packaging

2 x 2.5 gallon  
5 x 30 gallon  
1 x 250 gallon tote

### Mode of Action

Post-emergence growth regulator (Auxin type) herbicide that moves both upward and downward to the growing points of the roots and shoots.
