

# EVERGREEN<sup>®</sup> PRO 60-6

EVERGREEN<sup>®</sup> Pro 60-6 is a multipurpose, broad-spectrum contact insecticide that delivers fast, effective knockdown and kill of insects. EVERGREEN Pro 60-6 is an effective solution to challenging conditions.

- Contains Pyrethrins, a botanical insecticide
- May be tank mixed with other insecticides to excite the insects out of hiding and into contact with the spray solution for a faster, more complete kill
- For use in and around commercial and residential buildings to kill cockroaches, spiders, ants, mites, earwigs, fruit flies and fungus gnats
- For use on livestock, poultry and in their facilities to kill face flies, horn flies, horse flies, house flies, stable flies
- For use on growing crops in greenhouses, ornamentals and stored products

## Product Specifications

<b>Signal Word</b>	Caution
<b>Packaging</b>	Pints (12 per case), Quarts (6 per case), Gallons (4 per case)
<b>EPA Registration Number</b>	1021-1770
<b>Food Handling</b>	For use in food and non-food areas
<b>Stability of Undiluted Product</b>	Stable
<b>Stability of Diluted Product</b>	Agitation recommended; not required. If left diluted in tank, make sure to agitate before reuse.
<b>Appearance</b>	Clear, amber-brown colored liquid
<b>Odor</b>	Mild sweet odor
<b>Active Ingredients</b>	Pyrethrins, PBO
<b>Flammability</b>	OSHA – combustible liquid
<b>Mode of Action</b>	Sodium channel modulator – disrupts insects' nervous system
<b>Class of Chemistry</b>	Pyrethrins, insecticide synergists
<b>Respirator Required</b>	Required
<b>Mix or Dilute in</b>	Water only
<b>Activity</b>	Flushes insects from hiding; contact kill
<b>Shelf Life</b>	3 years in original commercial packaging stored at room temperature

## Use Areas

### Food and Non-Food Areas

Bakeries  
Restaurants  
Grain elevators  
Warehouses  
Homes

### Livestock and Poultry Housing

Barns  
Dairies  
Milking parlors  
Milking rooms  
Poultry houses

### Growing Crops in Greenhouses

EVERGREEN Pro 60-6 may be used on most crops because its active ingredients are exempt from tolerances when applied to growing crops.

### Ornamental Plants Grown Indoors or Outdoors

Flowers  
Shrubs  
Trees  
Foliage  
Plants

### Post Harvest on Listed Harvested Fruits and Vegetables

On Stored Grain

## Method of Application

- Conventional hydraulic sprayers
- Compressed air sprayers
- Irrigation systems (chemigation)

## Best Practices when using EVERGREEN® Pro 60-6

### Buffer the pH of the EVERGREEN spray solution to 5.5–7.0

Application of the spray solution with a pH outside of this range may result in poor performance on target pests.

### EVERGREEN is a contact insecticide – good coverage is key

The amount of water used as a carrier has to be sufficient to achieve good coverage and contact target insects.

### Tank mix EVERGREEN with other products

EVERGREEN adds quick knockdown and kill, broad-spectrum control and resistance management benefits to other insecticide products. EVERGREEN may be combined with other insecticides and acaricides where resistance may be a problem and to provide a flushing of insects from hiding and into contact with other spray residues for quicker and more complete control.

### Use as a pre-harvest or a cleanup spray in greenhouses

EVERGREEN can be used where other materials cannot be used because of residue restrictions.

### For most situations, start at the “mid” application rate for EVERGREEN

### EVERGREEN may be applied in conjunction with other adjuvants

While EVERGREEN should be compatible with most products, conducting a small-scale test to ensure the lack of phytotoxicity of the combination is recommended.

### Carefully monitor insect populations and apply when insects are early in their life stage

Monitor your crops closely for the first appearance of insects and treat the insects early before the population gets out of control.

### Always read and follow label and SDS directions.

To learn more, visit [www.mgk.com](http://www.mgk.com), call 1-800-645-6466 or send an e-mail to [brands@mgk.com](mailto:brands@mgk.com).

### Apply EVERGREEN when target insects are active

Apply when the target insects are active to increase the direct contact with the insects and give the highest level of control.

## Key Insects Controlled

### EVERGREEN Pro 60-6 is labeled for the control of insects, such as:

Ants  
Aphids  
Apple Maggot  
Armyworms  
Artichoke Plume Moth  
Asparagus Beetle  
Beet Armyworm  
Bagworm  
Bean Beetles  
Blister Beetles  
Blow Flies  
Biting Flies  
Boll Weevil  
Cabbage Looper  
Cankerworms  
Carrot Weevil  
Caterpillars  
Clover Mite  
Clover Weevil  
Cockroaches  
12-spotted Cucumber Beetle  
Codling Moth  
Colorado Potato Beetles  
Corn Earworm  
Crane Flies  
Crickets  
Cross-striped Cabbageworm  
Cucumber Beetles  
Deer Fly  
Deer Tick Earwigs  
Diamondback Moth Larvae  
Eastern Tent Caterpillar  
Elm Leaf Beetle  
European Corn Borer  
European Pine Tip Moth  
Face Fly  
Fall Webworm  
Fire Ants  
Firebrats  
Fireworms  
Flea Beetles  
Flies  
Forest Tent Caterpillar  
Fungus Gnats  
Fruit Flies  
Fruittree Leafroller  
Grape Leafhopper  
Grape Leaf Skeletonizer  
Grasshoppers  
Green Fruit Worm  
Green Peach Aphids  
Greenhouse Thrips  
Gypsy Moth (adults & larvae)

Harlequin Bug  
Heliothis sp.  
Hornets  
Horn Fly  
Hornworm  
Horse Fly  
House Fly  
Imported Cabbageworm  
Indian Meal Moth  
Imported Cabbageworm  
Japanese Beetle  
Katydid  
Lace Bugs  
Leafhopper  
Leafrollers  
Leafhoppers  
Lice  
Loopers  
Lygus  
Mealy Bugs  
Mediterranean Flour Moth  
Mexican Bean Beetle  
Midges  
Millipedes  
Mosquitoes  
Mushroom Flies  
Navel Orangeworm  
Onion Maggot  
Pear Psylla  
Potato Leafhopper  
Psyllids  
Rice Weevil  
Sawtoothed Grain Beetle  
Silverfish  
Skippers  
Sowbugs  
Stable Fly  
Stink Bugs  
Spiders  
Tabanidae  
Tarnished Plant Bug  
Thrips  
Tomato Hornworm  
Vinegar Flies  
Wasps  
Webworms  
Whiteflies  
Yellowjackets
