

TURF MASTER Chelated Mix

General Information

TURF MASTER is a balanced formulation of micro nutrients organically designed for foliar application to ornamentals and turf.

TURF MASTER can be combined with insecticides, fungicides and herbicides.

TURF MASTER can be used on most palms, turf and ornamentals.

TURF MASTER is protected from soil or chemical tie-up by its unique organic shell and the compound also contains polysaccharides which stimulate the leaf's ability to absorb micro nutrients. **TURF MASTER** is nonphytotoxic when applied as directed. **TURF MASTER** can be added to spray solutions of herbicides to offset the discoloration associated with many herbicides.

TURF MASTER is an excellent acidifying agent for high pH water. Alkaline water will reduce the effectiveness of most commonly used turf insecticides. Always add **TURF MASTER** to spray tank before any pesticides.

ATTENTION: Avoid contact with unfinished wood products, painted surfaces, or concrete as this products may cause staining.

Conditions of Sale:

1. Seller warrants that this product consist of the ingredients specified and is reasonably fit for the purpose stated on this label when used in accordance with directions under normal conditions of use. No one, other than an officer of Seller, is authorized to make any warranty, guarantee or direction concerning this product.

2. Because the time, place, rate of application and other conditions of use are beyond Sellers control, Sellers liability from handling, storage and use of this product is limited to replacement of product or refund of purchase price.

Directions for Use

FAIRWAYS, LAWNS AND OTHER

TURF AREAS: As a maintenance rate, use 3 to 8 ounces of **TURF MASTER** per 1000 sq. ft. in sufficient water for thorough coverage (usually 3-5 gallons of water / 1000 sq. ft.) Use 8 to 16 ounces of **TURF MASTER** to correct severe deficiencies. Four to six applications per growing season are recommended to maintain vigorous turf.

ORNAMENTALS: Mix 2 to 4 qts. of **TURF MASTER** per 100 gals. of water and spray foliage to point of run off.

TEES AND GREENS: **TURF MASTER** is excellent for use on greens and tees to maintain color and vigor. Use 4 to 8 ounces per 1000 sq. ft. as a maintenance rate in sufficient water for thorough coverage.

TURF MASTER can be applied through sprinkler irrigation systems.

CONTAINER DISPOSAL:

PLASTIC- Triple rinse (or equivalent), then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill or incineration or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

CAUTION: Harmful if swallowed. Avoid breathing spray mist. May cause irritation of nose, throat, and or skin. Avoid contact with eyes, skin and clothing. If swallowed: induce vomiting by sticking finger down throat. Never give anything by mouth to an unconscious person. Get medical attention immediately. If in eyes: wash eyes with plenty of clear water for at least 15 minutes. Get medical attention immediately.

PRECAUTIONS: Do not apply **TURF MASTER** to dry or desiccated turf or plants. Do not apply during dry, windy conditions. Do not apply to masonry, including, but not limited to, walks, drives, pool decking and patios. **TURF MASTER** will stain concrete.
