

TUFF GREENS™

GUARANTEED ANALYSIS 0-0-13

Soluble Potash (K₂O) 13.00%

Derived from: Potassium Hydroxide.

ALSO CONTAINS NON-PLANT FOOD INGREDIENT:

1.0% Organic Matter (derived from leonardite)

DIRECTIONS FOR USE

• Shake well before use. • Designed to be applied by both soil and/or foliar application. • TUFF GREENS™ supplies potassium to turf and ornamentals and should be applied when turf or ornamental tissue and soil analysis identifies the need and proper rate of application for this product. • Best results will be obtained when application is concentrated in the active root zone or on the leaf surface. • Can be applied in combination with compatible plant growth regulators, pesticides, or other liquid fertilizers. • If compatibility is in question, jar test a small quantity. • Apply foliar sprays with sufficient water to ensure uniform coverage without running off leaf surfaces. • Do not apply this product foliarly in concentrations greater than 5%. • For maximum results, apply in the early morning or in the evening when air temperatures are optimum for foliar application. • Do not apply HUMA GRO® TURF nutrients during the hottest time of the day or to turf or ornamentals under drought or flood stress. • Application timing, intervals and rates may vary according to turf or ornamental requirements, stage of development, available nutrient levels in the soil, and overall nutritional status of the plants. • Applications can be made as often as every 7 to 10 days as needed. • Consult your local HUMA GRO® TURF Representative or other turf or ornamental specialist for specific recommendations. • Do not store this product below 50°F (10°C) or above 90°F (30°C).

This product is intended as a supplement to a regular fertilization program and will not, by itself, provide all the nutrients normally required by turf and ornamentals.

STORAGE AND DISPOSAL:

Keep product in original container. Do not transfer into food or drink containers. Triple rinse when empty for recycling. Always dispose of container in accordance with local, state and/or federal regulations.

METHOD OF APPLICATION

Turf & Sod / Nursery & Ornamentals

SUGGESTED RATE PER 1,000 sq. ft.

SUGGESTED RATE PER ACRE

Foliar broadcast spray or fertigated through sprinkler system

up to 3 ounces / up to 6 ounces
up to 1 gallon / up to 2 gallons

Soil applied through drip tape or micro sprinklers

*** / up to 6 ounces
*** / up to 2 gallons

Soil broadcast spray incorporated

up to 6 ounces / up to 12 ounces
up to 2 gallons / up to 4 gallons
