THE POWER TO KNOW

Since 2003, VM Products has developed and manufactured high-quality, innovative products for the professional pest management industry. Over 250 years combined experience of all sales force and employees. We continually develop new and more advanced products to stay ahead of the ever-changing market conditions and to utilize the very latest in technology. VM Products is committed to providing the most effective pest control solutions that save time and money, as well as exceptional customer service. Our stations are environmentally friendly, durable, reliable, economical, easy to operate and maintain. In addition, our stations are made here in the U.S.A. and can be customized with your logo and/or company information. VM Products is the resource for pest control companies.

EZ SECURED WITH EZ TRAY
Removable Tray Allows for Easy Maintenance

EZ SECURED PLACEMENT
Along Exterior Wall Near HVAC Unit

ABSORPTION RATE

We did an absorption rate study on our EZ Secured rodent station working with our belief that the block on the outside of the station is a superior product. The lab results show that the block has a 7.3% absorbent rate thus pulling more moisture from the earth to create a familiar smell for the rodent. The moisture stays on the block, not on the inside of the station. The EZ Secured can be deployed on gravel, concrete, asphalt, sand, dirt, and grass with equal success

Quantity

6 per case

Each station is shipped with:

- 2 plastic rods
- Barcode
- Label
- 1 key for every 3 stations

Dimensions:
12.5" x 3.25" x 8.75"

AVAILABLE IN BLACK, WHITE AND GREEN

USE

Your solution for an economical, easy to operate, and easy to clean station for safe control of rats and mice in residential and commercial applications.

PRODUCT INFO

- Use with snap trap or soft, liquid and solid baits
- The solid bait can be positioned vertically or horizontally
- Constructed of heavy-duty plastic, for extended durability & reliability
- EZ to maintain and service

THE SCIENCE OF **FORCEFLOW**

1

GUIDE WALL

Back wall designed to force rodent into the station.

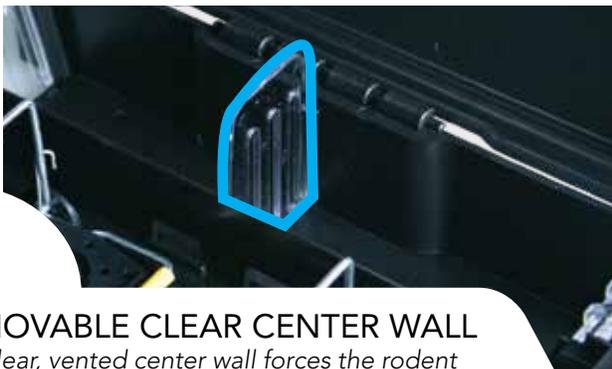

2

OPEN FLOOR ENTRY

Existing surface gives rodent sense of safety as they flow into the station.

4

REMOVABLE CLEAR CENTER WALL

The clear, vented center wall forces the rodent into the target zone.

5

COMMITMENT WALL

Rodent is forced over commitment wall into the target zone.

EZ CONCEAL

INSECT STATION

Quantity

10 per bag, 10 bags per box

Each station is shipped with:

Dimensions: 3 1/4" x 4 1/4" x 5/8"

- EZ Conceal station with pre-attached foam backing
- Catchmaster™ 72CRM glue boards
- Barcode

USA

Univar #837861

CANADA

Univar #800793

USE

The EZ Conceal is a low profile, covered station that can be placed flat on floors, walls or ceilings for insect monitoring and detection. Keeps customers and inspectors from seeing the insect on the glue board. The EZ Conceal is designed to work intricately in commercial kitchens including fast food, food processing, restaurants, etc.

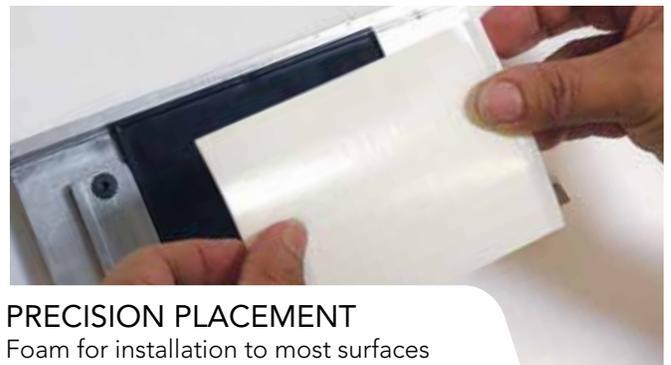

PRODUCT INFO

- Pre-attached double-sided foam makes attaching to any surface EZ
- Barcode attached to the lid makes scanning EZ
- Glue board comes out with the lid for easy service while the base stays permanent.
- Glue board sinks into the base to create a deadfall for the insect
- Glue board included with initial purchase
- Uses the Catchmaster™ 72CRM glue board

Expertly Designed Labels by VM Products

VM Products has manufactured and marketed innovative products for the professional pest management industry since 2003. We are committed to developing products that save time and money. This business practice continues with VM Custom Print. VM Custom Print provides pest control companies with private labeling products for their bait stations, ILTs, and any other device documentation requirements they need.

Benefits & Features

Customize each label with your company name, logo, address, telephone number & your choice of rodenticides and chemicals

- An array of label and card sizes available on high-quality face stock and card stock known for their consistency and resistance to chemicals, moisture, oils, grease, cracking, shrinking or distortion in size and weather-resistance
- Wall placards are made of durable polystyrene with permanent foam acrylic adhesive. Screen-printed with UV inks plus UV clear-coat for durability. Superior resistance to weathering. Easy peel and press application.
- Cards and labels contain 12 months and can be used for 1-5 years of service recording
- Durable and long lasting
- Maintain accurate information for each station and customer accounts
- Labels and cards have ample space to record the date of each treatment or inspection, the type of bait, the active ingredient of bait, EPA number, and signal word
- Customized labels make it easy to comply with state requirements and regulations
- Foreign language labels available (translations available for an additional fee)

Use with this VM product:

VM Products has developed and manufactured high-quality, innovative products for the professional pest management industry since 2003. We are continually developing new and more advanced products to stay ahead of the ever-changing market conditions and to utilize the very latest in technology. VM Products is committed to providing the most effective pest management solutions that save time and money, as well as exceptional customer service. Our stations are environmentally friendly, durable, reliable, economical, easy to operate and easy to maintain. In addition, our stations are made here in the U.S.A. and can be customized with your logo and/or company information. VM Products is the resource for pest control companies.

At VM Products, our mission is to provide the most effective and innovative pest control solutions for the professional pest management industry.
