

DITRAC®

ECONOMICAL MAINTENANCE BAIT

PRODUCT FEATURES:

- ▶ Made with Diphacinone
 - Contains the multiple-feeding anticoagulant Diphacinone
 - Lower toxicity to non-targets and the antidote, Vitamin K₁, is readily available
 - Excellent value for both indoor and outdoor applications
 - Great for maintaining control once population is restrained
- ▶ Available Product Forms
 - All-weather Blox & Cake are highly palatable and both mold and moisture resistant
 - Pellets are labeled for burrow baiting beyond 100' of man-made structures
 - Tracking Powder is restricted-use for use by certified applicators. Just teaspoon amounts will control Norway rats, roof rats and house mice.
