The "Painted" Pro Ketch®

Multiple Catch Mouse Trap

Stock #
104-0-014

When you need extra protection against heavy moisture or caustic chemicals, Kness' "Painted" Ketch-All® and "Painted" Pro-Ketch® is the answer.

Ketch-All® and Pro-Ketch® parts go through a six stage washer, degreaser, rinse and phosphatizing system for superior paint adhesion. The powdered paint is applied with an electrostatic spray system to give an even coat of paint. The paint is then baked on for a hard durable gray finish.

Worldwide Solutions In Pest Control Since 1924™

- **Outstanding protection against moisture and caustic chemicals.**
- **Cost effective. Trap does not need to be replaced as often.**
- **Place in production or processing areas requiring extreme wash downs.**
- **Use outdoors in all weather conditions.**
- **Eliminate or reduce the use of poisons.**
