Mantis 1x2 MAX50

The upgraded shatter resistant 25-watt high power Quantum ultraviolet lamps (50 total watts) in the durable all-metal system provides MAXimum protection against flying insect pests.

Ultra-slim and attractive to both the customers and target insects, the Mantis® 1x2MAX is compact and unobtrusive and only requires an occasional change of glue boards as these are protected by the patented Reflectobakt® sleeves. With the Mantis® 1x2MAX, insects remain intact when caught in the capture zone.

No noise, no smell, no problem. This allows the systems to be placed closer to sensitive areas and ideal for high insect density environments.

Shown with optional stand product code EF30STAND

- Patented Reflectobakt® sleeves for maximum catch and to significantly slow the drying of the glue board – longer board life and slimmer design
- Two high-powered 25-watt Quantum ultraviolet lamps – more attraction to target flying insects
- Shatter resistant lamps, as standard – extra protection in ‘glass-free’ zones
- Strategically positioned full-size glue board – effective control and maximum catch of all sizes of flying insects
- Large full-size black adhesive board – to hide catch with added discreetness
- Gray grid matrix boards, available as an option, for easy insect counting and monitoring. Boards can be retained to provide an accurate record of infestation levels for HACCP audits
- Glue boards are interchangeable with other Mantis® systems – minimizes stocking requirements and gives exceptional performance and value
- Advanced energy efficient electronic ballast system reduces running costs and increases energy savings
- Electronic ballast also eliminates the need for starter replacement – less maintenance
- Gun metal gray powder-coated Zintec steel craftsmanship – extra long life and years of dependable service
- Easy to remove bottom tray and drop-down guard – quick and easy no tool service
- Versatile mounting options, wall or freestanding bracket available for added versatility and ease of placement
- 3-year warranty (excluding boards and bulbs) - replace bulbs annually for maximum effectiveness
- Meets all FDA, USDA and food legislation requirements and guidelines.
- Quantum lamps are lead free, low mercury (Hg), proven to be 100% more attractive, and 40% more powerful than the old 350nm standard UV lamps.

TECHNICAL INFORMATION

Dimensions	H: 12 1/2" (31.75cm) W: 19" (48.26cm) D: 2 1/2" (6.35cm)	
Weight	10lb (4.4 kg)	
Coverage	Wall mounted	Freestanding (Chrome stand sold separately)
Finish	Gray	
Lamp Data	• 2-25 watt, Lead-free, Quantum shatter resistant lamps (TUB25W490)
