Product No. 917

PERMATITE STAKE

Plastic Stake to Secure Rodent Rock™ Station.
Stake is 16 inches long x 5/8 inch Diameter with a 3/4 inch flange.
Packed 24 Stakes per Case

STEP 1

Screw wing cap onto thread as far as it will go.

STEP 2

Using a mallet, pound stake, with wing cap attached, into ground until wing cap is flush with the ground.

STEP 3

Grasp wing cap and gently pull up until you feel resistance on the stake (approximately 1" out of the ground).

STEP 4

Remove wing cap by unscrewing it from the stake.

STEP 5

Place Rodent Rock™ over stake thru the pre-drilled 3/4" hole on bottom of Rodent Rock™ and screw the wing cap back on.
