

# TURF MASTER PLUS N-Plus Iron

## General Information

**N-PLUS IRON** is a unique iron micro nutrient product that is most effective when plants are growing rapidly and least effective when plants are dormant or suffering from stress. **N-PLUS IRON** can be applied through any method of application as long as there is a sufficient quantity of water to insure complete coverage. **N-PLUS IRON** is compatible with most commonly used herbicides, insecticides, fungicides and fertilizers. If in doubt a jar test prior to mixing is recommended. **N-PLUS IRON** is an excellent acidifying agent effectively reducing the pH of highly alkaline waters.

**NOTE:** Undiluted **N-PLUS IRON** is corrosive to mild steel, aluminum, and brass and must be stored and/or shipped in polypropylene, stainless steel or fiberglass containers.

**ATTENTION:** Avoid contact with unfinished wood products, painted surfaces, or concrete as this product may cause staining.

## Conditions of Sale:

1. Seller warrants that this product consist of the ingredients specified and is reasonably fit for the purpose stated on this label when used in accordance with directions under normal conditions of use. No one, other than an officer of Seller, is authorized to make any warranty, guarantee or direction concerning this product.

2. Because the time, place, rate of application and other conditions of use are beyond Sellers control, Sellers liability from handling, storage and use of this product is limited to replacement of product or refund of purchase price.

## Direction for Use

**TURF:** St. Augustine, Bahia, Centipede, Bent, Zoysia and Tall Fescue grass. Apply 3-8 oz. of **N-PLUS IRON** per 1,000 sq. ft. with sufficient water for good coverage (usually 3 to 5 gals. of water/1000 sq. ft.).

**BERMUDA GRASS:** Apply 4-10 oz. of **N-PLUS IRON** per 1,000 sq. ft. with sufficient water for good coverage.

**BLUE GRASS, RYE GRASS AND OTHER COOL SEASON GRASSES:** Apply 2-6 oz. of **N-PLUS IRON** per 1,000 sq. ft. with sufficient water for good coverage.

**INJECTION SYSTEM:** Inject **N-PLUS IRON** at a rate of 50-100 PPM monthly. Three to five applications per growing season usually produces best results.

**ORNAMENTALS:** Apply 1 gallon of **N-PLUS IRON** per 100 gallons of water for commercial application and spray to point of run off. For small quantities use approximately 2 oz. of **N-PLUS IRON** per 1 gallon of water.

**SOIL:** Apply 5-6 oz. of **N-PLUS IRON** for small shrubs and 10-f 2 oz. of **N-PLUS IRON** for large shrubs. Mix with 3-5 gallons of water and apply directly underneath the shrub and water in well. **TURF MASTER** can be applied through sprinkler irrigation systems.

**CONTAINER DISPOSAL:** PLASTIC-Triple rise (or equivalent), then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill or incineration or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

**CAUTION:** Harmful if swallowed. Avoid breathing spray mist. May cause irritation of nose, throat, and or skin. Avoid contact with eyes, skin and clothing. If swallowed: induce vomiting by sticking finger down throat. Never give anything by mouth to an unconscious person. Get medical attention immediately. If in eyes: wash eyes with plenty of clear water for at least 15 minutes. Get medical attention immediately. **PRECAUTIONS:** Do not apply **TURF MASTER** to dry or desiccated turf or plants. Do not apply during dry, windy conditions. Do not apply to masonry, including, but not limited to, walks, drives, pool decking and patios. **TURF MASTER** will stain concrete.
