

RESPIRATORS

U.S. SAFETY Utility Dust Mask

Offers relief from non-toxic dusts, pollen, animal dander and other nuisance level dusts at exposures below the OSHA Permissible Exposure Limit (PEL). Lightweight, easy to breathe through, fits easily and comfortably, and economical. Weighs less than 1/3 ounce and doesn't collapse when it becomes wet. Not NIOSH approved. Box of 50 masks

RS2114BX Box of 50

Saf-T-Fit Plus N95 Respirator

NIOSH approved for use with particulate aerosols free of oil. Low breathing resistance, lightweight and latex-free. Incorporates humidity-resistant filter media and durable suspension straps. Color-coded facepiece in three sizes to fit a wider range of facial features – Small, Medium/Large and XLarge. Box of 20 masks

RS1105-S, M/L or XL

P95 Disposable Respirator

NIOSH-approved P95 protection for extended use with contaminant aerosols containing oil. Exhalation valve for ease of breathing and exceptional comfort during extended wear. Full sealing flange for best fit and protection, and latex-free. Suggested for use in sanding, grinding, sweeping, brazing, torch cutting, soldering, certain welding applications and for hot, dusty, dry operations. Available in Medium and Large. Box of 10 respirators.

RSP9535 – M/L Box of 10

RSP9535 – XL Box of 10

MOLDEX 2200 N95 Particulate Respirators

Ideal for hot, humid, dusty conditions. The Dura-Mesh® shell resists collapsing and the Softspun® lining provides added comfort and durability. This mask's molded nose bridge seals easily without a metal nose band. The naturally contoured facepiece relieves pressure points for longer wearing comfort. NIOSH certified to have a filter efficiency level of 95% or greater against particulate aerosols free of oil. Size Medium/Large (ML). Box of 20.

RS2120BX-ML

MOLDEX 2300 N95 Particulate Respirators with Valve

Easier to wear with a pinch-free nose bridge – comfortably fits the contour of your nose without a metal nose band. The Dura-Mesh® flame-retardant shell protects the filter media so it stays cleaner longer and resists collapsing, even in heat and humidity. The exclusive Ventex® valve gets hot air out faster, so breathing resistance is reduced and workers stay cooler. Elastic straps are securely attached so they don't break at the seal. Available in a box of 10, or in a convenient 5-pack personal locker with a separate compartment for the mask being used.

RS2130BX Box of 10

RS2300PK 5 Pack Locker

RS2155EA Organic Vapor/R95 Filters

RS2158 Uni-Sorb®
Multicontaminant/P100 Filters

Freedom® Disposable Respirator

Pre-assembled with cartridges/prefilters and ready to use. Eliminates assembly mistakes and the need for cleaning and maintenance. Features rolled edges, a broad sealing flange, chin port and forward angled nosepiece for a secure, comfortable fit. Ideal for extremely dusty or dirty applications where cleaning after use is difficult, including paint and pesticide spraying, welding, primary metals, automotive and chemical operations. Available in Medium and Large.
