NEW — The Precision molded STORGARD DOME Trap monitoring system is even more dependable. With many new and improved features, designed around insect behavior, it offers more optimized capture. The trap's clean, consistent performance provides earlier detection for timely control.

UNIQUE
PHEROMONE+KAIROMONE SYNERGY

NEW — Improved Kairomone. A Few Drops Double The Capture Rate. Our improved Kairomone attractant works in synergy with our time-proven Pheromone attractants to target a broad spectrum of species with twice the capture rate.

Your Edge – And Ours – Is Knowledge.
