

# **CIRRUS™ Fogging Concentrate**

CIRRUS is a new fogging concentrate that provides quick knockdown and kill of insects in food processing, stored food warehouses, residences and other situations where area space treatments are required.

## **About the active:**

CIRRUS contains 3 active ingredients – ETOC® and the synergists Piperonyl Butoxide and MGK®-264. ETOC - *(RS)-2methyl-4-oxo-3-(2-propynyl) cyclopent-2-enyl-(1RS)-cis, trans-chrysanthemate* - is a man-made active that closely mimics the performance characteristics of Pyrethrum. ETOC is a non-residual pyrethroid that provides excellent flushing, quick knockdown and a high level of kill of insects.

## **Key Features:**

CIRRUS effectively **controls a broad spectrum of tough insects:**

- **STORED PRODUCT PESTS:** Indian Meal Moth, Saw-Toothed Grain Beetle and others.
- **FLYING INSECTS:** Flies, Fruit Flies, Gnats, Mosquitoes and others.
- **CRAWLING INSECTS:** Cockroaches, Ants, Fleas, Scorpions, Spiders and others.

CIRRUS' high level of activity makes it **ideal for “clean out” situations.**

CIRRUS' active ingredients are all **approved for use in food areas.**

CIRRUS delivers **quick knockdown and a complete kill.**

**FLEXIBLE – Developed to be used with all types of fogging equipment.**

**Aerosol Generators**

**ULV Cold Foggers**

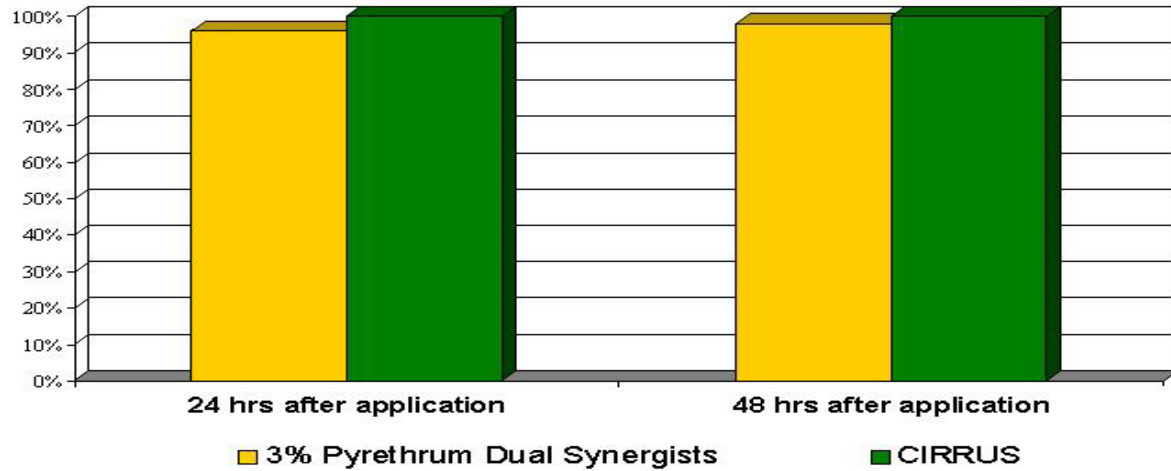

**Thermal Foggers**

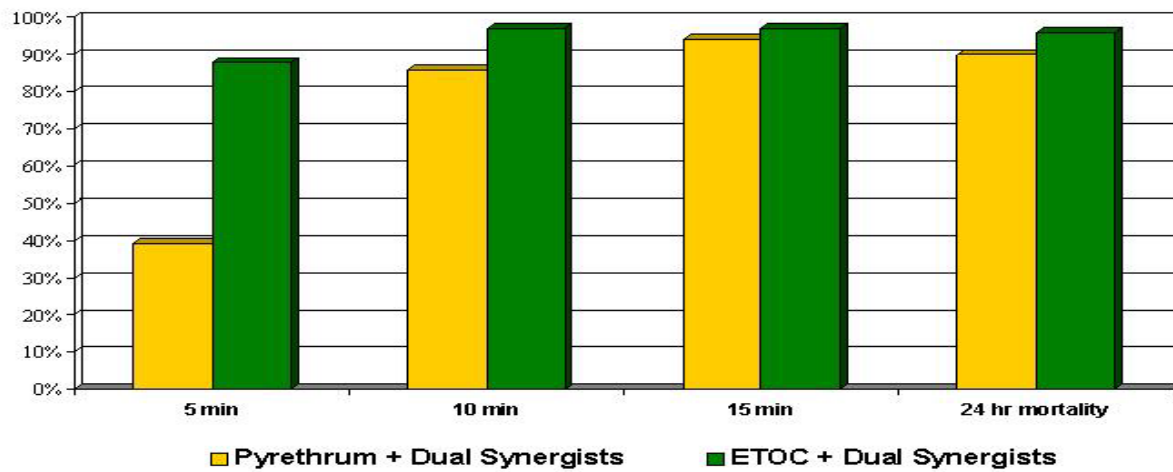

**Compare Performance to ULD® BP-300**
