

RODENTS & INSECTS DON'T STAND A CHANCE

AGAINST **Burrat**[®]
SAMURAI ARMOR
Door Sweep

THE PROBLEMS:

- ✓ Cockroaches (1/8"), mice (1/4") and rats (1/2") can squeeze underneath a standard door gap
- ✓ Most doors have a gap underneath that rodents can easily enter
- ✓ Rats can chew off plastic and even aluminum plates
- ✓ If their heads can fit through, rodents can invade your business
- ✓ Cockroaches and rodents can bring transmitted disease such as Leptospirosis, food poisoning, plague, rat bite fever, Lyme disease, hantavirus, trichinosis, murine typhus, etc.
- ✓ Mouse and cockroach allergens can also be a major health hazard

THE SOLUTION?

Burrat[®]
SAMURAI ARMOR
Door Sweep

- ✓ Stainless steel frame that rodents cannot chew off
- ✓ Bristle lengths are smaller than a rodent's skull size
- ✓ Replaceable brush parts
- ✓ Easy installation with double sided tape and screws
- ✓ High quality bristles
- ✓ Sleek looking
- ✓ The market's best option

No More Rats & Mice in the House with Burrat Samurai Armor Stainless Door Sweeps!

Did you know that 0.4" of space was wide enough for a rat to squeeze himself in? He can bite through the plastic or aluminum frames and make the space bigger with his teeth.

With the stainless frame of Burrat Samurai Armor Door Sweep, pest control can be safer and easier than ever!
