

# DeciMax<sup>®</sup>

## Place Packs & Blocks

Neogen's newest rodenticide bait includes the active Bromadiolone, a proven and effective second generation active. Rats, mice and meadow voles may consume a lethal dose in a single night's feeding, with the first dead rodents appearing four or five days after feeding begins. Product offering includes blocks with ridges to promote gnawing and place packs for a no touch bait placement.

### DeciMax Blocks and Place Packs:

- Single feed, second generation anticoagulant, Bromadiolone, provides excellent control in less time after lethal dose is consumed
- Palatable formula with grains and seeds and available in 1 oz blocks and 1.5 oz place packs
- For indoor and outdoor control of rats, mice, and other non-commensal rodents
- All Weather formulation reduces the risk of ruined bait, while food grade ingredients provide an irresistible formulation for effective control in most environments

Item #	Description
116850	DeciMax Blocks 9 lb Pail
116855	DeciMax Blocks 18 lb Pail
116845	DeciMax Place Packs (86 x 1.5 oz) Pail
